

<p>Project Description</p>	<p>The goal of this project is to secure a donation of land approximately with 257 acres of habitat for federal and state-listed sensitive and priority species, including bull trout and American green sturgeon. It will also expand public recreational and education opportunities and protect habitats that mitigate the effects of sea level rise.</p>
<p>Project Benefits</p>	<p>Acquisition of these parcels by WDFW will guarantee public recreational access while strengthening the ability to manage existing WDFW adjacent properties.</p>
<p>Support</p>	<p>US Fish and Wildlife Service, Grays Harbor Audubon Society, Ducks Unlimited, Forterra, the City of Aberdeen</p>
