Subject	Wildlife: Hunting Rules
Message	Dear Sirs, I,m writing about the proposed changes to the four point minimum in gmus 117 &121. I feel that it has been a huge success, the kill numbers are as good as other units and we are only killing 4 point bucks. I have enjoyed hunting more the last few years, even though I was skunked two of the last three seasons. One of the biggest pluses has been the lack of hunting pressure, you can actually watch a deer and not have to worry about some buddy spooking it, I would like to see it in place for a few more years, make it a trophy unit. But I guess its not going to happen, so I guess theirs A couple options from what I've heard, one is to let youths shoot any buck, I could live with that a lot easier than going back to what it used to be (if its brown its down). I hope you can do something to let us keep some of what we've gained, its been nice the lack of hunting pressure and the better quality of deer to choose from. Thank you Don Brooks
