Subject: RE: ECY SEPA 14-5408 - Cedar River Parking Area project - Comments
Date: Monday, November 03, 2014 8:05:27 AM

Ms. Mendoza,

WDFW would like to thank Ecology for their review of SEPA 14-5408 for proposed work on the Cedar River parking area. Please note the following responses to your comments.

Shorelands & Environmental Assistance: A JARPA will be filed with Ecology and the Corps along with site plans. JARPAs are likely to be submitted in early November.

Water Quality: Erosion control measures will be in place prior to any clearing, grading, or construction as shown in site drawings. According to the criteria listed, WDFW will not be required to apply for a Construction Stormwater General Permit. If any contaminants are found on-site, Ecology will be notified immediately.

Toxics Cleanup: Contamination is not expected, but if it is discovered or occurs during the project, WDFW will have media tested and will inform Ecology upon result or upon immediate exposure.

Thank you again for your comments and we look forward to working with you in the future on this project and others.
