State of Washington
DEPARTMENT OF FISH AND WILDLIFE
Habitat Program: 600 Capitol Way N., Olympia Washington 98501-1091 - (360) 902-2534

ENVIRONMENTAL CHECKLIST
(WAC 197-11-960)

A. BACKGROUND

1. Name of proposed project if applicable:

   Plant triploid (sterile) grass carp to control aquatic vegetation.

2. Name of applicant:
   Mike Mabrey

3. Address and phone number of applicant and contact person:
   20709 NE 232nd Ave., Battle Ground, WA 98604
   (360) 397-2280 x4343 Mike Mabrey

4. Date of checklist prepared:
   August 13, 2010

5. Agency requesting checklist: **Washington Department of Fish and Wildlife**

6. Proposed timing or schedule (include phasing, if applicable):
   Fall, 2010

7. Do you have any plans for future additions, expansions or further activity related to or connected with this proposal? If yes, explain: **YES, may need to restock, in five years or more, due to predation or natural die off.**

8. List any environmental information you know about that has been prepared or will be prepared, directly related to this proposal: None.

9. Do you know whether applications are pending for government approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: **No.**

10. List any government approvals or permits that will be needed for your proposal, if known:

    a. **Planting permit from Washington Department of Fish and Wildlife.**
    b. **Certificate from U.S. Fish and Wildlife Service that the fish shipped are triploids (sterile) and certification that the fish show no sign of disease.**

11. Give a brief, complete description of your proposal, including the proposed use and the size of the project. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to answer those on this page.

    a. **Plant triploid grass carp to control aquatic vegetation.**

12. Location of proposal. Give sufficient information for a person to understand the precise location of your proposed project, including: **street address, if any, and section, township and range (required)**. If a proposal would occur over a range of areas, provide the range or boundaries of the site(s). Provide a legal description and site plan, if reasonably available. **A copy of a vicinity map or topographic map is required**. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

    Site address is 20709 NE 232nd Ave., Battle Ground, WA 98604. Legal description is High Valley #2, Lot 2 located in Clark County. Section 3, T3N R3E W.M.

B. ENVIRONMENTAL ELEMENTS

1. EARTH

a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other:

b. What is the steepest slope on the site (approximate percent slope)? 25%

c. What general types of soils are found on the site (for example: clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and not any prime farmland. Hydric soils: MnA back half of property where pond is located; Non-Hydric: OmE in front half of site

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe: No

e. Describe the purpose, type and approximate quantities of any filling or grading proposed. Indicate source of fill. None.

f. Could erosion occur as a result of clearing, construction or use? If so, generally describe: No grading, clearing or construction are proposed.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example: asphalt or buildings)? No new impervious area is proposed.

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: N/A

2. AIR

a. What type of emissions to the air would result from the proposal (for example: dust automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

None.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe:

No.

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

None.

3. WATER

a. <u>Surface</u>

1. Is there any surface water body on the immediate vicinity of the site (including year-round and season streams, saltwater, lakes, ponds or wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Stocking of grass carp is proposed for a backyard pond. Pond outfall drains across neighbors pasture to Salmon Creek, approximately 300 feet to the southwest.

2. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

Release of fish and screening of outlet.

3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

None.

4. Will the proposal require surface water withdrawals or diversions? Give general description, purpose and approximate quantities if known.

No.

5. Does the proposal lie within a 100-year floodplain? YES **<u>NO</u>**

If yes, note location on the site plan.

6. Does the proposal involve any discharges of waste material to surface waters? If so, describe the type of waste and anticipated volume of discharge. No.

b. Ground

1. Will ground water be withdrawn or will water be discharged to ground water? Give general description, purpose and approximate quantities, if known. No.

2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage, industrial, containing the following chemicals, agricultural). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable) or the number of animals or humans the system(s) are expected to serve.
None.

c. Water Runoff (including storm water):

1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (including quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

No new runoff will be generated.

2. Could waste materials enter ground or surface waters? If so, generally describe.

No.

3. Proposed measures to reduce or control surface, ground and runoff water impacts, if any:
None.

4. PLANTS

a. Check or circle types of vegetation found on the site:

__X_ deciduous tree: alder, maple, aspen, other: willow, wild cherry

__X_ evergreen tree: **fir, cedar, pine**, other: redwood, larch

__X_ shrubs

__X grass

__X_ pasture

___ crop or grain

___ wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other: reed canary grass

___ water plants: water lily, eelgrass, **milfoil**, other

___ other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

Grass carp are intended to remove milfoil and other invasive aquatic plants.

c. List threatened and endangered species (of plants) known to be on or near the site.

d. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site if any: Native plants are currently used to shade the pond.

5. ANIMALS

a. Circle any birds or animals that have been observed on or near the site or are known to be on or near the site:

Birds: **hawk, heron,** eagle, songbirds, other: **crows, robins, finches**

Mammals: deer, bear, elk, **beaver,** other: nutria

Fish: bass, salmon, trout, herring, shellfish, other: _____

b. List any threatened or endangered species known to be on or near the site.

None.

c. Is the site part of a migration route? If so, explain.

Canadian geese use the pond seasonally

d. Proposed measures to preserve and enhance wildlife, if any:

6. ENERGY AND NATURAL RESOURCES

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used in order to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

None.

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

No.

c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

None.

7. ENVIRONMENTAL HEALTH

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste that could occur as a result of this proposal.

No, this is a biological method to reduce aquatic plants that is a safe alternative to chemical treatment with herbicides.

1. Describe special emergency services that might be required.

None.

2. Proposed measures to reduce or control environmental health hazards.

None.

b. Noise

1. What types of noise exist in the area that may affect your project (for example: traffic, equipment, operation, other)?

None.

2. What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

None.

3. Proposed measures to reduce or control noise impacts, if any:

None.

8. LAND AND SHORELINE USE

1. What is the current use of the site and adjacent properties?

Single-family residence

2. Has the site been used for agriculture? If so, describe? Garden, orchard.

3. Describe any structures on the site. A house, a barn and a greenhouse

4. Will any structures be demolished? If so, what?
   No

5. What is the current zoning classification of the site?
   R-5

6. What is the current comprehensive plan designation of the site?
   R-5 Rural Residential

7. If applicable, what is the current shoreline master program designation of the site?
   None.

8. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.
   No.

9. Approximately how many people, would reside or work in the completed project?

   None.

10. Approximately how many people would the completed project displace?
    None.

11. Proposed measures to avoid or reduce displacement impacts, if any:

    N/A

12. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: N/A

9. HOUSING

1. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing.
   None.

2. Approximately how many units, if any would be eliminated? Indicate high, middle or low-income housing.
   None.

3. Proposed measures to reduce or control housing impacts, if any:

   N/A

10. AESTHETICS

1. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

   N/A

2. What views in the immediate vicinity would be altered or obstructed?
   None

3. Proposed measures to reduce or control aesthetic impacts, if any:

None.

11. LIGHT AND GLARE

1. What type of light or glare will the proposal produce? That time of day would it mainly occur?

None

2. Could light or glare from the finished project be a safety hazard or interfere with views?
No.

3. What existing off-site sources of light or glare may affect your proposal?
The sun.

4. Proposed measures to reduce or control light and glare impacts, if any:
Keep the willow trees.

12. RECREATION

1. What designated and informal recreational opportunities are in the immediate vicinity? None.

2. Would the proposed project displace any existing recreational uses? If so, describe. No.

3. Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project or applicant, if any:
None.

13. HISTORIC AND CULTURAL PRESERVATION

1. Are there places or objects listed on, or proposed for, national, state or local preservation registers known to be on or next to the site? If so, generally describe. No.

2. Generally describe any landmarks or evidence of historic, archaeological, scientific or cultural importance known to be on or next to the site.

None.

3. Proposed measures to reduce or control impacts, if any: N/A

14. TRANSPORTATION

1. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.
   NE 209th Street is a county road. NE 232nd Avenue is a private street. No new access is proposed.

2. Is the site currently served by public transit? If no, what is the approximate distance to the nearest transit stop? No. Battle Ground Fairgrounds Park

3. How many parking spaces would the completed project have? N/A

4. How many would the project eliminate? N/A

5. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private). No.

6. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe. No.

7. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur
   None

8. Proposed measures to reduce or control transportation impacts, if any:
   N/A

15. PUBLIC SERVICES

1. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.
   No

2. Proposed measures to reduce or control direct impacts on public services.
   None

16. UTILITIES

1. Circle utilities currently available at the site: **electricity**, natural gas, **water, refuse service, telephone,** sanitary sewer, **septic system**, other:

2. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity that might be needed. None.

17. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

MAP OF LAKE OR POND

Please include distribution of each vegetation type. Irrigation and power canal applicants need only provide estimated acres of each plant type.

Please use the space below to draw a map of your water as close to scale as possible. Also draw in the approximate areas that are covered by each type of plant and properly label each. **Plant coverage estimates should be made in July or August or from your best recollection of that time period.**

PERMIT #: REG /YR /MO /NO

WASHINGTON DEPARTMENT OF FISH AND WILDLIFE
600 CAPITOL WAY NORTH
OLYMPIA, WASHINGTON 98501-1091

FISH TRANSPORT APPLICATION/PERMIT

To Import, Export, Transfer, or Stock Live Fin Fish, Viable Eggs or Gametes
(Please print or type Items 1-5)

1. Type of application: ☒ Import ☐ Export ☐ Transfer ☒ Stocking (Fee: $24.00)
2. Name of Applicant Mike Mabrey Phone number (360) 397-2280 x4343
   Mailing address 20709 NE 232nd Ave City Battle Ground State WA Zip 98604
   WDFW Aquatic Farm Registration # (for commercial aquaculture facilities only) _____
3. Species Triploid Grass Carp Number (fish or eggs) 50
4. Destination (name of facility/receiving waters) home pond
   County Clark Sec. 3 Twnshp. 3N Rng. 3E
5. Source of fish/eggs: Facility name Opaline Aqua-Farms Phone number (208)495-2654
   Physical Location 9347 Fish Pond Lane City Melba State ID Zip 83641
   Mailing Address HC 79, Box 100 City Melba State ID Zip 83641
   WDFW Aquatic Farm Registration # (for commercial sources in Washington) N/A
6. Stocking Fee $24.00. Refundable if application is not approved.
7. Applicant's Signature _____ Date 08/13/10

NOTE: It is unlawful to transport or stock fish without a permit issued by the Director or his/her designee.
Failure to comply with any provisions of this permit or to perform any act not included in this permit shall be grounds for revocation of this permit and shall constitute a gross misdemeanor.

INFORMATION BELOW TO BE COMPLETED BY WDFW PERSONNEL

Provisions:

Expiration date _____

☐ Additional provisions attached

Stocking Permits Only:

_____ These fish may be taken by any person possessing a legal fishing license and in conformance with seasons, bag limits, and rules established by the Washington State Fish and Wildlife Commission.

_____ This permit will allow the taking of these legally obtained and stocked fish without controls of bag limits, seasons, license requirements and is limited to personal use only.

Approved ☐ Not approved ☐ Regional Fish Prog. Manager _____ Date _____
(For stocking permit only. If source is WDFW certified, no additional signatures required)

Approved ☐ Not approved ☐ Fish Health Manager _____ Date _____

Approved ☐ Not approved ☐ Aquaculture Coordinator _____ Date _____

WASHINGTON DEPARTMENT OF FISH AND WILDLIFE
Application for Planting Triploid Grass Carp

1. Name of Applicant or Organization Mike Mabrey

2. Address 20709 NE 232nd Ave B.G. WA 98604 Day Phone: (360) 897-2280 x4343

3. Name of Lake or Pond to be Planted: Mabrey Pond

4. County: Clark Township: T3N Range: R3E Section: 3

Note: A photocopy of a county map showing rivers and streams at the proposed planting location <u>MUST</u> be provided with this application.

5. Size of lake or pond (1 acre= 208 X 208 ft.) .21 ac Max Depth (ft) 10

6. Does this pond or lake have public access provided by the city, county, state or federal government or other publicly owned municipality? YES____ NO X

(Answer "NO" for golf course, sewage treatment or fish culture ponds and power or irrigation canals).
<u>If you answered "NO", go to #8</u>

7. If you answered "YES" to number 6, are the results of a Lake Restoration Feasibility Study included? YES_____ NO_____

   If you answered "YES" go to # 10 and skip #11.
   If you answered "NO", a permit cannot be issued until the standards for a lake restoration study have been met. Please contact your local WDFW regional office to proceed with this study.

8. Total number of waterfront property owners: 1

9. Number of waterfront property owners that support 1 or oppose 0 Proposed planting of triploid grass carp.

Note: The names, addresses and phone numbers of all waterfront property owners and whether or not they support the proposed grass carp introduction MUST be provided with this application.

10. Have all outlets and/or inlets been screened? YES_____ NO_____

    If you answered "NO" you must apply for a Hydraulic Project Approval (HPA) before installing screens. **The Department of Fish and Wildlife will not issue a permit to plant triploid grass carp into waters with unscreened outlets.** If the proposed lake or pond is greater than 20 acres, other permits from the county of jurisdiction may be required to install screens. Please contact your Department of Fish and Wildlife Regional Office for additional direction on this requirement.

11. Please draw a map of the lake or pond as close to scale as possible on the attached sheet. Draw in vegetation types that are present. This map will assist our biologists in determining how many fish to plant into your pond or lake.

Signature of Applicant Mike Mabrey Date 8/14/2010

Delayed to 2011
