Subject: Similkameen River Access Maintenance, SEPA Comment
Date: Tuesday, May 31, 2022 4:18:47 PM

Hi Gwen,

RE: SEPA Register 202202171, 22-025

Thank you for your review of the Similkameen River Access Areas Maintenance project and for providing comments. In response to the concern of water quality and erosion control, the project will implement BMPs to reduce sedimentation into the river during construction. Straw wattles will be placed at sites 1 and 3 above the OHWM near the proposed gravel trails. These will remain in place until construction is complete and will then be removed. Any bare soil will receive native seed and straw mulch.

Thank you,
Anna
