

Agenda – September 14, 2011, 9 am – 1 pm
Puget Sound Hatchery Action Advisory Group
Natural Resource Bldg. – Director’s Conference Room

Meeting objectives

- Finalize Chinook population designations
 - Review draft TRT populations for Puget Sound steelhead and establish preliminary population designations
1. Summarize estimated effects to Puget Sound Chinook fisheries from Issaquah Chinook reduction of 1M and Tumwater Falls reduction of 2.8M.
 2. Review model estimates of harvest rates on hatchery Chinook to pHOS for Green R. and Skokomish R. Chinook.
 3. Summarize and review Puget Sound Chinook population designations and wild salmonid management zones.
 4. Review draft TRT population designations for Puget Sound steelhead and initiate discussion to establish the population designations.
