

Population Summary recommendations – Puget Sound Steelhead

Puget Sound Steelhead TRT-Geo-region	Puget Sound Steelhead TRT-Demographically Independent Populations (DIP)	PSHAAC Recommendations				Current HAIP planning relative to PSHAAC Recommendation (aligned/not aligned)?
		Final ¹ Recommended STHD Wild Salmonid Management Zone (WSMZ) Candidate-Y/N? and (ranking)	Current Segregated Harvest Program?	Current Hatchery Risk Assessment (High, Mod, Low)	Priority for needed M&E prior to 2015 (High, Med, Low)	
North Sound	Nooksack Winter	N				
	SF Nooksack Summer	Y				Aligned- This WSMZ has not been formalized into the HAIP. However, Brodie does not think it will be an issue.
	Samish Winter	Y				Aligned- This WSMZ has not been formalized into the HAIP. However, all co-managers agreed to the discontinuation of the hatchery releases into the Samish, so formalization should be easy.
	Skagit S/W	1				
	Baker S/W	N				
	Sauk S/W	Y				Aligned- This WSMZ has not been formalized into the HAIP. However, the Skagit plan is still in the development phase, so we will bring the WSMZ concept and candidate recommendations into the technical discussions.
	Stillaguamish Winter	2				
	Deer Creek Summer	2				

Puget Sound Steelhead TRT-Geo-region	Puget Sound Steelhead TRT-Demographically Independent Populations (DIP)	PSHAAC Recommendations				Current HAIP planning relative to PSHAAC Recommendation (aligned/not aligned)?
		Final ¹ Recommended STHD Wild Salmonid Management Zone (WSMZ) Candidate-Y/N? and (ranking)	Current Segregated Harvest Program?	Current Hatchery Risk Assessment (High, Mod, Low)	Priority for needed M&E prior to 2015 (High, Med, Low)	
	Canyon Creek Summer	2				
	Snoh/Sky Winter	2				
	Pilchuck Winter	Y				Not Aligned- Although there is no formalized production planted in this system, we <u>need</u> direction from Jim on how to proceed, given the final status of the HAIP
	Snoqualmie Winter	N				
	NF Skykomish Summer	Y				Not Aligned- Although there is no formalized production planted in this system, we <u>need</u> direction from Jim on how to proceed, given the final status of the HAIP
	Tolt Summer	Y				Not Aligned- Although there is no formalized production planted in this system, we <u>need</u> direction from Jim on how to proceed, given the final status of the HAIP
South Central	Lk. Wash. Winter	N				
	Cedar	N				
	Green	N				
	Puyallup/Carbon Winter	Y				
	White Winter	Y				
	Nisqually	Y				

Puget Sound Steelhead TRT-Geo-region	Puget Sound Steelhead TRT-Demographically Independent Populations (DIP)	PSHAAC Recommendations				Current HAIP planning relative to PSHAAC Recommendation (aligned/not aligned)?
		Final ¹ Recommended STHD Wild Salmonid Management Zone (WSMZ) Candidate-Y/N? and (ranking)	Current Segregated Harvest Program?	Current Hatchery Risk Assessment (High, Mod, Low)	Priority for needed M&E prior to 2015 (High, Med, Low)	
	South Sound Tribs.	N				
	East Kitsap Winter	N				
Olympic	Skokomish Winter	Y ³				
	East-Hood Canal Winter	Y ³				
	West Hood Canal Winter	Y ³				
	Sequim Winter	Y				
	Dungeness Winter	N				
	Strait Independent Winter	N				
	Elwha	Y ³				

¹ Needs further PSHAAC Discussion for final recommendation.

² Identified as candidate WSMZ but not a final recommendation

³ Recommended as candidate once supplementation program is sunset.
