Purpose: The purpose of this proposal is to modify the description of the Bonilla-Tatoosh line so that it is consistent with the description in federal rules. The description of the Bonilla-Tatoosh line is listed in Code of Federal Regulations (CFR) Title 50, Part 660.

Reasons supporting proposal: The description of the Bonilla-Tatoosh line is essential to differentiating between adjacent management areas located on the northwest coast of Washington at Cape Flattery. The current rule does not include latitude and longitude coordinates for each reference point and is not consistent with the description in federal regulation. The changes simplify the description of the line and will make it easier for recreational fishers and enforcement officers to identify where the line is drawn.
