General Purpose statement for all rule changes involved in this rulemaking:

This rulemaking removes several game reserve and closure areas that are no longer functioning for the management purposes for which they were established. In addition, there are several other amendments to rules that reduce or realign reserve boundaries to improve the quality of hunting around reserves and WDFW Wildlife Areas.

Changes made in addition to the general purpose listed above:

WAC 232-12-068 Nontoxic Shot Requirements

Purpose:

This amendment adds new language referring to all WDFW designated pheasant release sites and removes reference to the list of specific sites, which can change annually.

WAC 232-28-299 Mandatory Report of Hunting Activity

Purpose:

Changes to this rule consolidates mandatory reporting rules for all game species and allows removal of this language from annual and 3-year season rules.
