Agency: Washington Department of Fish and Wildlife

Purpose: The purpose of this rule-making is to allow non-treaty commercial fishing opportunity in the Columbia River while protecting fish listed as threatened or endangered under the Endangered Species Act. This rule-making implements federal court orders governing Washington's relationship with Treaty Indian Tribes, federal law governing Washington's relationship with Oregon, and Washington Fish and Wildlife Commission policy guidance for Columbia River fisheries.

Citation of existing rules affected by this order:

Repealed: WAC 220-33-04000H, WAC 220-33-04000I
 Amended: WAC 220-33-040
 Suspended:

Statutory authority for adoption: RCW 77.04.130, 77.12.045, and 77.12.047

Other authority : United States v. Oregon, Civil No. 68-513-KI (D. Or.), Order Adopting 2008-2017 United States v. Oregon Management Agreement (Aug. 12, 2008) (Doc. No. 2546); Northwest Gillnetters Ass'n v. Sandison, 95 Wn.2d 638, 628 P.2d 800 (1981); Washington Fish and Wildlife Commission policies concerning Columbia River fisheries; 40 Stat. 515 (Columbia River Compact).

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, or 2011, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Closes the Columbia River commercial smelt fishery prior to the scheduled date of March 31, 2010. The fishery served as a test fishery to monitor run strength and collect biological data. The 2010 smelt run is likely complete and no additional fishing time is required to determine the magnitude of the run. Rule is consistent with Columbia River Compact action of March 8, 2010. There is insufficient time to adopt permanent rules.
