**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, or 2011, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Yakama Nation (YN) and Washington Department of Fish and Wildlife fishery managers are forecasting a large return of 16,570 adult spring Chinook to the Yakima River in 2010, of which 72% (11,900) are predicted to be hatchery salmon from the Yakima/Klickitat Fisheries Project research hatchery at Cle Elum operated by the YN. The co-managers estimate that only 7% will be wild Naches River Chinook. Twenty-one percent of the run is expected to be naturally produced upper Yakima River fish needed for Cle Elum Hatchery broodstock and natural spawning above Roza Dam. The abundant hatchery component can support increased harvest, while all wild or natural origin Chinook need to be protected. There is insufficient time to adopt permanent rules.
