EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, or 2011, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The 2010 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule closes the spot shrimp season in Catch Areas 26B-2, 26D and closes the non-spot shrimp season in Shrimp Management Area 1, as the quotas will be reached, and lowers the spot shrimp weekly limits in some areas to prevent overharvest of the area quotas. There is insufficient time to adopt permanent rules.

NEW SECTION

WAC 220-52-05100M Puget Sound shrimp pot and beam trawl fishery—season.

Notwithstanding the provisions of WAC 220-52-051, effective immediately until further notice, it is unlawful to fish for shrimp for commercial purposes in Puget Sound except as provided for in this section:

(1) Shrimp pot gear:

(a) Effective immediately, all waters of Shrimp Management Areas 2W, 3, 4, and 6 are open to the harvest of all shrimp species until further notice, except as provided for in this section:

(i) All waters of Marine Fish-Shellfish Management and Catch Reporting Area (Catch Area) 23A-C, 23A-E, 23A-W and the Discovery Bay Shrimp District are closed.

(ii) All waters of Shrimp Management Area (SMA) 2W, Catch Areas 23B and 25A are closed to the harvest of spot shrimp.

(iii) Effective 6:00 p.m. August 26, 2010, all waters of Catch Area 26B-2 are closed, and all waters of Catch Area 26D are closed to the harvest of spot shrimp.

(b) Effective immediately until further notice, only pots with a minimum mesh size of 1 inch may be pulled on calendar days when fishing for or retaining spot shrimp. Mesh size of 1 inch is defined as a mesh opening that a 7/8-inch square peg will pass through, excluding the entrance tunnels, except for flexible (web) mesh pots, where the mesh must be a minimum of 1-3/4 inch stretch measure. Stretch measure is defined as the distance between the inside of one knot to the outside of the opposite knot of one mesh, when the mesh is stretched vertically.

(c) The shrimp accounting week is Tuesday through Monday.

(d) Effective immediately, until further notice, it is unlawful for the combined total harvest of spot shrimp by a fisher and/or the fisher's alternate operator to exceed 600 pounds per week, except in the following areas:

i) Effective immediately, until 6:00 p.m. August 26, 2010, it is unlawful for the total harvest of spot shrimp by a fisher and/or the fisher's alternate operator to exceed 300 lbs per week in Catch Areas 26B-2 and 26D.

(e) It is unlawful to pull shellfish pots for commercial purposes in more than one Catch Area per day. Fishers may move all of their shellfish pot gear from one Catch Area to another Catch Area if a harvest report is made before the shellfish pot gear is moved. The harvest activity report must be made consistent with the provisions of WAC 220-52-075 and must also include the following additional information:

- (i) The number of pots being moved to a new area; and
- (ii) The Catch Area the pots are being moved to.

(f) It is unlawful to set or pull shellfish pots in one Catch Area while in possession of shrimp harvested from another Catch Area, except that shellfish pots may be set in a new fishing area subsequent to making a report as indicated in Section (1)(e) above.

(2) Shrimp beam trawl gear:

(a) SMA 3 (outside of the Discovery Bay Shrimp District, Sequim Bay and Catch Area 23D) is open immediately until further notice. Sequim Bay includes those waters of Catch Area 25A south of a line projected west from Travis Spit on the Miller Peninsula.

All waters of Catch Area 20A are open.

(3) All shrimp taken under this section must be sold to licensed Washington wholesale fish dealers.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-52-05100L Puget Sound shrimp pot and beam trawl fishery—season. (10-209)

EMERGENCY RULE ONLY

Under RCW 34.05.350 the agency for good cause finds:

(x) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

() That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

() That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, or 2011, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The 2010 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule closes the spot shrimp season in Catch Areas 26B-2, 26D and closes the non-spot shrimp season in Shrimp Management Area 1, as the quotas will be reached, and lowers the spot shrimp weekly limits in some areas to prevent overharvest of the area quotas. There is insufficient time to adopt permanent rules.
