EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, or 2011, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this for this finding: Drano Lake: When the hatchery ladder was opened for a single day between May 12 and 13, a total of 1,662 spring Chinook entered Little White Salmon National Fish Hatchery. The hatchery escapement goal is 1,000 fish. Surplus hatchery fish, including jacks, are available for harvest. Wind River: The hatchery is expected to meet its escapement goal, and surplus hatchery origin fish are available for harvest. There is insufficient time to adopt permanent rules.
