**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, or 2011, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Yelloweye rockfish are one of seven overfished species managed under rebuilding plans by the Pacific Fishery Management Council. Yelloweye rockfish may be caught incidentally when anglers target lingcod in deeper waters. Management measures, including depth restrictions, have been effective at reducing the incidental catch of overfished species including yelloweye rockfish while anglers are targeting lingcod. This rule conforms to federal action taken by Pacific Fishery Management Council and the National Marine Fisheries Service. There is insufficient time to adopt permanent rules.
