EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Current pot limits were instituted in order to slow the early season landings and maintain a manageable supply to area buyers. The need to limit this flow has eased in some areas, which allows for an increase in pots from 75 pots per license to 100 pots per license in Region 3-2. Additionally, this regulation continues the closure of Region 2 West, where the Puget Sound State commercial fishery has reached its initial allocation. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes. There is insufficient time to adopt permanent regulations.
