EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Preliminary estimates indicate that encounters with legal size hatchery and wild (unmarked) Chinook in Area 10 will exceed the preseason expectations. The Chinook fishery is being closed to control impacts on stocks of concern and ensure compliance with conservation objectives and agreed-to management plans. Salmon fishing opens south of Foulweather Bluff to Olele Point to allow anglers to target pink and coho. There is insufficient time to adopt permanent rules.

WAC 232-28-62100W Puget Sound salmon—saltwater seasons and daily limits. (13-182)

EMERGENCY RULE ONLY

Under RCW 34.05.350 the agency for good cause finds:

(x) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

() That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

() That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, 2011, 2012 or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Preliminary estimates indicate that encounters with legal size hatchery and wild (unmarked) Chinook in Area 10 will exceed the preseason expectations. The Chinook fishery is being closed to control impacts on stocks of concern and ensure compliance with conservation objectives and agreed-to management plans. The fishery is being modified to control impacts on stocks of concern and ensure compliance with conservation objectives and agreed-to management plans, and ensure the fishery will run through August 31, 2013.

Salmon fishing opens south of Foulweather Bluff to Olele Point to allow anglers to target pink and coho since the Area 9 Chinook fishery was closed to control impacts on stocks of concern and ensure compliance with conservation objectives and agreed-to management plans. There is insufficient time to adopt permanent rules.
