EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The 2014 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule temporarily closes all open Shrimp Management Areas to spot shrimp fishing, as Industry has requested a closure to give time for an Industry-wide meeting to plan a harvest strategy for the remainder of the spot shrimp season. There is insufficient time to adopt permanent rules.

WAC 220-52-05100X Puget Sound shrimp pot and beam trawl fishery—season.

Notwithstanding the provisions of WAC 220-52-051, effective immediately until further notice, it is unlawful to fish for shrimp for commercial purposes in Puget Sound except as provided in this section:

- (1) Shrimp pot gear:
 - (a) All waters of Shrimp Management Areas 2W, 3, 4, 5 and 6 are open to the harvest of all shrimp species, except:
 - (i) All waters of the Discovery Bay Shrimp District are closed; and

 - (b) It is unlawful to pull shellfish pots in more than one catch area per day.
 - (c) Only pots with a minimum mesh size of 1 inch may be pulled on calendar days when fishing for or retaining spot shrimp. Mesh size of 1 inch is defined as a mesh opening that a 7/8-inch square peg will pass through, excluding the entrance tunnels, except for flexible (web) mesh pots, where the mesh must be a minimum of 1³/₄-inch stretch measure. - (2) Shrimp beam trawl gear:
 - (a) Shrimp Management Area (SMA) 3 (outside of the Discovery Bay Shrimp District, Sequim Bay and Catch Area 23D) is open. Sequim Bay includes those waters of Catch Area 25A south of a line projected west from Travis Spit on the Miller Peninsula.
