EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The current WAC established for the initial offering of licenses to geoduck divers relies on the diver providing documentation from DNR that demonstrates they meet the requirements for exercising right of first refusal. DNR has since determined it is unable to provide the specific documentation to the divers in the timeframe needed, but can certify the diver meets the established requirements. This emergency rule allows the department to accept certification from DNR that a geoduck diver license applicant was on a harvest plan in 2101, 2102, 2103 or 2104. There is insufficient time to adopt permanent rules.

NEW SECTION

WAC 220-52-01904A Commercial geoduck harvest – License application and issuance process for 2015 geoduck diver licenses.

Notwithstanding the provisions of WAC 220-52-01904, effective immediately until further notice, it is permissible for the department to accept certification from Washington department of natural resources verifying the applicant is listed on a plan of operations for 2011, 2012, 2013 or 2014 for “right of first refusal” applicants in lieu of an applicant submitting a copy of a DNR geoduck harvest agreement plan of operation that lists the applicant on the agreement.

EMERGENCY RULE ONLY

Under RCW 34.05.350 the agency for good cause finds:

(x) That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

() That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

() That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal years 2009, 2010, 2011, 2012 or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The current WAC established for the initial offering of licenses to geoduck divers relies on the diver providing documentation from DNR that demonstrates they meet the requirements for exercising right of first refusal. DNR has since determined it is unable to provide the specific documentation to the divers in the timeframe needed, but can certify the diver meets the established requirements. This emergency rule allows the department to accept certification from DNR that a geoduck diver license applicant was on a harvest plan in 2011, 2102, 2103 or 2104. There is insufficient time to adopt permanent rules.
