

RULE-MAKING ORDER

CR-103E (July 2011)
(Implements RCW 34.05.350)

Agency: Washington Department of Fish and Wildlife

Emergency Rule Only

Effective date of rule:

Emergency Rules 15-381

- Immediately upon filing.
- Later (specify) _____

Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes
 - No
- If Yes, explain:

Purpose: Amend authorized work times for suction dredging in the Gold and Fish Rules for Mineral Prospecting and Placer Mining

Citation of existing rules affected by this order:

Repealed: WAC 220-660-3000J
 Amended: WAC 220-660-300
 Suspended:

Statutory authority for adoption: RCW 77.04.012, 77.04.020, 77.12.045 and 77.12.047

Other authority :

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding:

See Attachment A

Date adopted: October 13, 2015

**Note: If any category is left blank, it will be calculated as zero.
No descriptive text.**

**Count by whole WAC sections only, from the WAC number through the history note.
A section may be counted in more than one category.**

The number of sections adopted in order to comply with:

Federal statute:	New	_____	Amended	_____	Repealed	_____
Federal rules or standards:	New	_____	Amended	_____	Repealed	_____
Recently enacted state statutes:	New	_____	Amended	_____	Repealed	_____

The number of sections adopted at the request of a nongovernmental entity:

New	_____	Amended	_____	Repealed	_____
-----	-------	---------	-------	----------	-------

The number of sections adopted in the agency's own initiative:

New	<u>1</u>	Amended	_____	Repealed	<u>1</u>
-----	----------	---------	-------	----------	----------

The number of sections adopted in order to clarify, streamline, or reform agency procedures:

New	_____	Amended	_____	Repealed	_____
-----	-------	---------	-------	----------	-------

The number of sections adopted using:

Negotiated rule making:	New	_____	Amended	_____	Repealed	_____
Pilot rule making:	New	_____	Amended	_____	Repealed	_____
Other alternative rule making:	New	_____	Amended	_____	Repealed	_____

NEW SECTION

WAC 220-660-30000K Mineral prospecting

Notwithstanding the provisions of WAC 220-660-300, effective immediately until further notice, it is unlawful to violate the following provisions, provided that unless otherwise amended, all permanent rules remain in effect:

Chelan County

Wenatchee River from mouth to the Icicle River Road Bridge: Closed to suction dredging.

Icicle River from the mouth to 500 feet downstream of the Leavenworth National Fish Hatchery Barrier Dam: Closed to suction dredging..

Kittitas County

Little Naches River: Closed to suction dredging.

Teanaway River, including West, Middle and North Forks: Closed to suction dredging.

Lewis County

Newaukum River and all tributaries: Closed to suction dredging.

Okanogan County

Okanogan River from the Hwy 97 Bridge immediately upstream of the mouth to Zosel Dam: Closed to suction dredging.

Similkameen River from the mouth upstream to Enloe Dam: Closed to suction dredging.

Yakima County

Ahtanum Creek, including North and Middle Forks: Closed to suction dredging.

REPEALER

The following section of the Washington Administrative Code is repealed:

WAC 220-660-30000J Mineral prospecting. (15-371)

ATTACHMENT A

This filing removes closure on the Black and Colville Rivers and the 2 PM to one-half hour after official sunset restriction on Peshastin Creek and all tributaries due to improved conditions. Cooler weather has reduced water temperatures. Flows have remained above criteria for protection of fish. There is insufficient time to promulgate permanent rules.

A lack of snowpack from an unusually warm winter has resulted in drought conditions throughout much of Washington. A healthy snowpack slowly provides water to rivers and streams, helping to sustain fish through the drier summer months. But, with little or no snowpack, flows in many rivers have dropped significantly and water temperatures have increased – conditions that are lethal to fish. In response, WDFW initially placed drought-related fishing closures and restrictions on over 60 rivers and streams.

Low water and higher than normal water temperatures are limiting fish movement and making them more susceptible to diseases. In addition, stream flows have fallen low enough to concentrate fish into small areas of refugia where they are highly susceptible to additional stress from disturbance caused by suction dredging. To protect fish life, WDFW is aligning the authorized work times for suction dredging in the Gold and Fish Rules for Mineral Prospecting and Placer Mining with drought-related fishing closures or restrictions now in effect. There is insufficient time to adopt permanent rules. As water temperatures and streamflows improve due to changing weather patterns, emergency rule changes for mineral prospecting will be modified to return to permanent rule requirements.

Per permanent rule, work in the wetted perimeter or frequent scour zone is authorized from one-half hour before sunrise to one-half hour after sunset. The daily closures from 2 PM to one-half hour after sunset are intended to reduce additional stress to fish from suction dredging during periods of the day when fish are stressed from elevated temperatures. In addition, some streams are closed to suction dredging because of record low flows due to lack of winter snowpack and rainfall. Stream flows have fallen low enough to concentrate fish into small areas of refugia where they are highly susceptible to additional stress from disturbance at these temperatures further reduces survival.
