**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Test fishery data collected during the last two weeks of October in Marine Area 9 indicate a high abundance of juvenile (sublegal-size) Chinook salmon and a high risk of reaching the allowable limit of total Chinook encounters early in the Area 9 winter mark-selective Chinook fishery. Puget Sound coho run sizes are below pre-season forecasts; therefore, non-retention of coho will be required beginning November 1, 2015. There is insufficient time to adopt permanent rules.
