Other authority :

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: This emergency rule is needed to open the sockeye fishery because the run has exceeded the pre-season forecast of 102,000 fish returning to the river mouth (currently ~240,000 at Bonneville thru June 26, 2016 with the total return now projected to reach 400,000). Barring extreme high water temperatures like 2015 that caused unprecedented pre-spawning mortality, sufficient escapement of fish to meet spawning needs in the Wenatchee and Okanogan Rivers should be realized. Opening these areas for sockeye fishing will provide for additional angling opportunity. There is insufficient time to adopt permanent rules.
