**Other authority :**

**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: To meet conservation needs for hatchery origin spring chinook. Chinook from the recovery program at Skookum Hatchery in South Fork Nooksack are holding in deep pools below the hatchery making them susceptible to pre-spawning mortality resulting from human activities including fishing. These fish are part of the recovery program for these Endangered Species Act listed chinook, therefore it is important that as many survive to spawn as possible. This closure will allow fish to hold in the river until the Chinook are able to move into the hatchery or move upstream to spawn. There is insufficient time to adopt permanent rules.
