EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: In order to protect crab during the typical fall molting period and to meet the stipulations found in state tribal agreements it is necessary to close the commercial crab fishery. Washington Department of Fish and Wildlife permitted gear recovery is allowed by permanent regulation 15 days following the close of the commercial season to allow Fish and Wildlife officers time to enforce rules relative to fishing during the closed season. An earlier start to the permitted gear recovery gives participants more time to recover lost gear before weather conditions becomes prohibitive to safe gear recovery efforts. There is insufficient time to adopt permanent rules.
