Business and Residential Notice
Chemical Treatment
For
African Clawed Frogs (*Xenopus laevis*)

Distribution Date: *August 19, 2016*

Washington Department of Fish and Wildlife will treat the primary sedimentation pond between September 19, 2016 and October 14, 2016.

Product(s) planned for use: Sodium chloride.

Location of treatment(s): N 47.044125 W -122.817076 located off Abbey Way Southeast Lacey, WA. Maps below.

Washington Department of Fish and Wildlife will post signs in treated and potentially affected areas up to 72 hours before application. The signs will describe any water use restrictions or advisories.

If you would like to request additional notification prior to treatment, or have further questions, please contact Washington Department of Fish and Wildlife at 360 480-2105 or Jesse.Schultz@dfw.wa.gov.

Washington Department of Ecology regulates this treatment under an Aquatic Invasive Species National Pollutant Discharge Elimination System Permit
