“GREEN SHEET”

Meeting: January 11-12, 2008

Agenda Item 3: Amend WAC 232-12-011 Wildlife classified shall not be hunted or fished – **Rule Action**

Prepared By: Harriet Allen

Presented By: Rocky Beach, Diversity Division Manager, Wildlife Program

Background:

The historic early summer population of bald eagles in Washington may have been around 8,800 birds. By 1980, the state's population declined to only 105 known nesting pairs. With 25 years of recovery activities, the population increased to 840 nesting pairs in 2005.

The bald eagle is currently listed as a threatened species in Washington. Population numbers have increased in Washington and primary threats to the eagle such as DDT contamination and habitat destruction have been addressed through existing habitat protection laws. The species was removed from the federal list of endangered and threatened species in 2007. The Department conducted a draft status review of the bald eagle in Washington in 2001 and updated it as a final in 2007. The final was released for a 30-day public review prior to the Commission meeting per WAC 232-12-297 Endangered, threatened, and sensitive wildlife species classification. The status review recommends downlisting the bald eagle from state threatened to state sensitive status.

Policy Issue(s) you are bringing to the Commission for consideration:

Downlisting of the bald eagle in Washington based on the biological status of the species.

Public involvement process used and what you learned:

These proposed recommendations were mailed to approximately 450 organizations and individuals in October for their review and consideration. These organizations and individuals were also informed of the opportunity to provide public testimony at the December 7-8, 2007 Commission meeting in Port Angeles.

The draft status review underwent a 90-day public review in 2001. The final updated report underwent a 30-day public review, per WAC 232-12-297 Endangered, threatened, and sensitive wildlife species classification. Review of the final updated report was mixed; most did not support downlisting; others supported downlisting, as long as nest and roost site habitat continued to be protected via regulation. SEPA review was also conducted on the proposed downlisting.

Action requested (identify the specific Commission decisions you are seeking):

Amend WAC 232-12-011 Wildlife classified shall not be hunted or fished, as presented.

Draft motion language:

I move that the bald eagle be removed from WAC 232-12-011, section (1) threatened category and designated as a sensitive species in section (2) of WAC 232-12-011.

Justification for Commission action:

Improved population status of the bald eagle in Washington.

AMENDATORY SECTION (Amending Order 06-09, filed 1/30/06,
effective 3/2/06)

WAC 232-12-011 Wildlife classified as protected shall not be hunted or fished. Protected wildlife are designated into three subcategories: Threatened, sensitive, and other.

(1) Threatened species are any wildlife species native to the state of Washington that are likely to become endangered within the foreseeable future throughout a significant portion of their range within the state without cooperative management or removal of threats. Protected wildlife designated as threatened include:

Common Name	Scientific Name
western gray squirrel	<i>Sciurus griseus</i>
Steller (northern) sea lion	<i>Eumetopias jubatus</i>
North American lynx	<i>Lynx canadensis</i>
bald eagle	<i>Haliaeetus leucocephalus</i>
ferruginous hawk	<i>Buteo regalis</i>
marbled murrelet	<i>Brachyramphus marmoratus</i>
green sea turtle	<i>Chelonia mydas</i>
loggerhead sea turtle	<i>Caretta caretta</i>
sage grouse	<i>Centrocercus urophasianus</i>
sharp-tailed grouse	<i>Phasianus columbianus</i>
Mazama pocket gopher	<i>Thomomys mazama</i>

(2) Sensitive species are any wildlife species native to the state of Washington that are vulnerable or declining and are likely to become endangered or threatened in a significant portion of their range within the state without cooperative management or removal of threats. Protected wildlife designated as sensitive include:

Common Name	Scientific Name
Gray whale	<i>Eschrichtius gibbosus</i>
Common Loon	<i>Gavia immer</i>
bald eagle	<i>Haliaeetus leucocephalus</i>
Peregrine Falcon	<i>Falco peregrinus</i>
Larch Mountain salamander	<i>Plethodon larselli</i>
Pygmy whitefish	<i>Prosopium coulteri</i>
Margined sculpin	<i>Cottus marginatus</i>
Olympic mudminnow	<i>Novumbra hubbsi</i>

(3) Other protected wildlife include:

Common Name	Scientific Name
cony or pika	<i>Ochotona princeps</i>
least chipmunk	<i>Tamias minimus</i>
yellow-pine chipmunk	<i>Tamias amoenus</i>
Townsend's chipmunk	<i>Tamias townsendii</i>
red-tailed chipmunk	<i>Tamias ruficaudus</i>
hoary marmot	<i>Marmota caligata</i>
Olympic marmot	<i>Marmota olympus</i>
Cascade golden-mantled ground squirrel	<i>Spermophilus saturatus</i>
golden-mantled ground squirrel	<i>Spermophilus lateralis</i>
Washington ground squirrel	<i>Spermophilus washingtoni</i>
red squirrel	<i>Tamiasciurus hudsonicus</i>
Douglas squirrel	<i>Tamiasciurus douglasii</i>
northern flying squirrel	<i>Glaucomys sabrinus</i>
wolverine	<i>Gulo gulo</i>
painted turtle	<i>Chrysemys picta</i>
California mountain kingsnake	<i>Lampropeltis zonata;</i>

All birds not classified as game birds, predatory birds or endangered species, or designated as threatened species or sensitive species; all bats, except when found in or immediately adjacent to a dwelling or other occupied building; mammals of the order *Cetacea*, including whales, porpoises, and mammals of the order *Pinnipedia* not otherwise classified as endangered species, or designated as threatened species or sensitive species. This section shall not apply to hair seals and sea lions which are threatening to damage or are damaging commercial fishing gear being utilized in a lawful manner or when said mammals are damaging or threatening to damage commercial fish being lawfully taken with commercial gear.

SUMMARY OF ORAL PUBLIC INPUT
 Taken at the Fish and Wildlife Commission Meeting
 December 7-8, 2007

WAC 232-12-011 Wildlife classified as protected shall not be hunted or fished

COMMENTS	AGENCY RESPONSE
Support eagle downlisting. Reduce the DNR forest practices critical habitat rule process for bald eagles.	Thank you for your comment. The forest practices critical habitat rules apply to Endangered and Threatened species, but not Sensitive species. Downlisting should streamline forest practices because applications that affect bald eagles will not be Class 4 Special. An eagle habitat management plan will still be required, but many will only require a standardized set of conditions.

PROPOSED RULE MAKING

CR-102 (June 2004)

(Implements RCW 34.05.320)

Do NOT use for expedited rule making

By: Monday, November 19, 2007

Assistance for persons with disabilities:
Contact: Susan Yeager by December 5, 2007
TTY (800) 833-6388 or (360) 902-2267

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
Protected wildlife are designated into three subcategories: threatened, sensitive, and other. The proposed rule would change the classification of the bald eagle from state threatened to state sensitive status.

Reasons supporting proposal:
The bald eagle is currently listed as a threatened species in Washington. Population numbers have increased in Washington and primary threats to the eagle such as DDT contamination and habitat destruction have been addressed through existing habitat protection laws. The bald eagle was removed from the federal list of endangered and threatened species in 2007. The Department conducted a draft status review of the bald eagle in Washington in 2001 and updated it as a final in 2007. The final will be released for a 30-day public review prior to the Commission meeting per WAC 232-12-297 Endangered, threatened, and sensitive wildlife species classification. The status review recommends downlisting the bald eagle from state threatened to state sensitive status.

Statutory authority for adoption: 77.12.047; 77.12.020
