<b>COMMENTS</b>	<b>AGENCY RESPONSE</b>
Based on previous comments, I thought that the #4 shot (or smaller) regulation only apply to species other than turkeys. Please consider changing the turkey regulations to allow other shot sizes.	The 2009 proposal addressed the use of #4 (or smaller) shot for turkeys. Studies have shown that using #4 shot or smaller (e.g., #6,) results in clean kills and reduced risks to those who might be shot in the rare case of an accident.
