

Agenda Item 5

Please insert this document after page 5.

WAC 232-12-068 Nontoxic Shot Requirements.

Supplemental Recommended Adjustments

The following adjustments are proposed since the Code Reviser (CR 102) filing and are NOT included in your notebook language.

Page 2-3

Under section (3), add Hoehn Road to the list of areas where possession of only nontoxic shot is required when hunting for upland game birds (pheasants, quail, chukar, or gray partridge), mourning doves, band-tailed pigeons, or game animals.

The reason for the change is that the Department completed an agreement with the U.S. Forest Service on July 23 to add Hoehn Road near Sedro Wooley as a new pheasant release site in Skagit County for the 2010-11 season. The site has been determined to be an area where nontoxic shot use is necessary to prevent lead shot ingestion by wildlife.
