Agenda Item 10: Boundary Regulations, Game Management Units – **Rule Action**

Prepared By: Dave Ware and Jerry Nelson

Presented By: Jerry Nelson Ph.D., Deer and Elk Section Manager, Wildlife Program

Background:

Department staff briefed the Commission in March on the proposed amendments to WACs 232-28-331 Game management units (GMUs) boundary descriptions – Region one; 232-28-332 Game management units (GMUs) boundary descriptions – Region two; 232-28-333 Game management units (GMUs) boundary descriptions – Region three; 232-28-334 Game management units (GMUs) boundary descriptions – Region four; 232-28-335 Game management units (GMUs) boundary descriptions – Region five; 232-28-336 Game management units (GMUs) boundary descriptions – Region six; and 232-28-337 Deer and elk areas.

Game management units are used to help distribute hunters and manage segments of deer and elk populations. Changes are done infrequently because of the impacts to hunters and long term data sets used for monitoring harvest and population information. The majority of changes currently being recommended are to simplify the descriptions, reduce the words used and space required to print them, update any road name changes or usage, update ownership, and close known gaps in boundaries. Deer and elk area boundaries are typically modified to address emerging damage issues.

A couple of minor omissions were added since the March meeting which are now part of your notebook.

Policy Issue(s) you are bringing to the Commission for consideration:

- Provide clarity in game management unit boundaries for hunters.
 - Reduce space required for publicizing the rules, and therefore, reduce expenditures.
-

Public involvement process used and what you learned:

Several individual hunters have contacted various WDFW staff members requesting clarification, closing of gaps, and use of road names that are posted on signs. These proposed recommendations were sent to approximately 450 organizations and individuals in January for their review and consideration. These organizations and individuals were also informed of the opportunity to provide public testimony at the March Commission meeting in Spokane.

Action requested (identify the specific Commission decisions you are seeking):

Adopt boundary rules as proposed.

Draft motion language:

I move to amend WACs 232-28-331; 232-28-332; 232-28-333; 232-28-334; 232-28-335; 232-28-336; and 232-28-337 as proposed.

Justification for Commission action:

These changes meet the approved criteria established by OFM as a result of the Governor’s Executive Order 10-06 Suspending Non-Critical Rule Development and Adoption because they are necessary to protect public safety and welfare, and they are beneficial to hunters (3d; 3e).

WAC 232-28-333 Game management units (GMUs) boundary descriptions – Region three

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and include additional adjustments since the March 2011 Commission Meeting. These changes are included in your notebook language.

Pages 35 through 44, and 47

A number of changes have been made to the Game Management Unit (GMUs) boundary descriptions to provide better descriptions of the GMUs. The changes reflect standardized conventions for abbreviations and road names; new road or place names that have changed over time; replacement of boundary landmarks that have become impossible to discern; and adaptation to landscape features that have changed (e.g., landslides, new roads). These changes provide clearer description language for GMU boundaries. The new language has been confirmed by regional staff and will be more readily discernible for hunters on the ground.

Page 41

For Game Management Unit (GMU) 346 Little Naches, the following language is being proposed. This change corrects an error in the boundary language that excluded a portion of land between the GMU boundary and the National Park boundary that should have been in the GMU. These changes correct that error.

GMU 346-LITTLE NACHES (Yakima and Kittitas counties):

Beginning at US Forest Service (USFS) Rd 1388 and (~~US Forest Service~~) USFS Trail 2000 (Pacific Crest National Scenic Trail); SE on (~~US Forest Service~~) USFS Rd 1388 and Manastash Ridge to the end of USFS Rd 1388; SE on Manastash Ridge to USFS Trail 694; E on (~~US Forest Service~~) USFS Trail 694 to (~~US Forest Service~~) USFS Rd 1701; S on (~~US Forest Service~~) USFS Rd 1701 to State Route (SR) 410; NW and SW on SR 410 to (~~US Forest Service Trail 2000 (Pacific Crest Trail)~~) Mount Rainier National Park boundary near Chinook Pass; N on (~~US Forest Service~~) the National Park boundary to the Pierce-Yakima county line (Cascades Mountain Range Crest) in T17N, R10E, Sec 35; NE on the Pierce-Yakima county line to USFS Trail 2000 ((Trail) to US Forest Service) in T17N, R10E, Sec 36; N on USFS Trail 2000 to USFS Rd 1388 and the point of beginning.

Pages 42 and 43

For Game Management Unit (GMU) 356 Bumping, the following language is being proposed. This change corrects an error in the boundary language that excluded a portion of land between the GMU boundary and the National Park boundary that should have been in the GMU. These changes correct that error.

Recommended Adjustments

The following adjustments are proposed since the Code Reviser (CR 102) filing and include additional adjustments since the March 2011 Commission Meeting. These changes are included in your notebook language.

Page 121

Change the boundary for Elk Area 6064 from:

Elk Area No. 6064 Quinault Valley (Grays Harbor and Jefferson counties): That portion of GMU 638 (Quinault) within the Quinault River watershed east of Gatton Creek and Lake Quinault.

to:

Elk Area No. 6064 Quinault Valley (Grays Harbor and Jefferson counties): That portion of GMU 638 (Quinault) within the Quinault River watershed east of Gatton Creek and Lake Quinault excluding US Forest Service (USFS) Colonel Bob Wilderness Area.

This change retains the ability to implement a Master Hunter hunt in an elk area of checkerboard ownership of both private land and U.S. Forest Service land. Excluding the wilderness area eliminates land from the elk area that does not have safety issues and does not require Master Hunter participation to conduct a general season elk hunt. This change is a negotiated compromise between all of the involved stakeholders in the valley.

ATTACHMENT A

WAC 232-12-424 Public conduct on lands under cooperative agreement with the department – Unlawful Acts

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The Department is recommending creation of a new WAC that will regulate public conduct on lands under cooperative agreement. Examples of regulated activities include violating posted safety zones, quality hunting site rules, and driving vehicles in areas that have been posted closed to motorized vehicle travel. The new rule will allow enforcement of private lands access rules that are mutually agreed to by the landowner and the Department.

Reasons supporting proposal:

When the Fish and Wildlife Commission adopted WAC 232.13, the definition of “department land” was modified to exclude private lands. While this change was necessary to effectively implement 232-13, the unintended consequence was that the Department lost its ability to enforce public access and conduct on private lands under agreement. As a result, a new rule addressing the use of private lands under agreement is needed.

WAC 232-28-273 2009-2011 Moose, bighorn sheep, and mountain goat seasons and permit quotas

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposed WAC amends seasons for moose, bighorn sheep, and mountain goat. Winter surveys indicate moose populations are stable. The Department recommends minor permit level adjustments in two moose hunt areas based on recent survey results. All bighorn sheep populations that currently are hunted either meet or exceed population objectives. The Department recommends minor permit level changes (from 41 to 48) based on the population thresholds in the Game Management Plan (2008). Mountain goat populations are stable in all hunted populations. Changes in permit levels are based on annual survey counts and tend to be conservative given the sensitivity of goats to over harvesting. The Department recommends status quo permit levels in all areas, except reducing the permit level from 5 to 3 in the Goat Rocks-Tieton River population management unit due to recent survey counts.

Reasons supporting proposal:

Permit level changes are based on the population thresholds in the 2009-2015 Game Management Plan.

WAC 232-28-286 2010, 2011, and 2012 Spring black bear seasons and regulations

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

To expand the benefit of the spring seasons in northeastern Washington, the Department is recommending increasing permit levels and season length. The anticipated effect is a slight increase in total harvest and reduced bear nuisance activity.

For westside spring bear hunts, the Department is recommending increasing the season length in the Kapowsin Tree Farm unit from April 15-May 15 to April 15-June 15 based on discussions with the landowners. There is a slight anticipated increase to the number of hunter days.

Reasons supporting proposal:

The objectives for spring bear hunting seasons are to reduce timber damage by bears (western Washington), reduce nuisance bear activity (northeastern Washington), and to divert harvest away from adult females and toward adult males (southeastern Washington).

WAC 232-28-295 Landowner hunting permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The Landowner Hunting Permit (LHP) program is designed to increase hunter access to private lands and to help some landowners address long-standing elk damage issues. The Department recommends adding one new LHP cooperator in Asotin County – Grande Ronde Vista. The Grande Ronde Vista LHP is a consortium of landowners that includes the owner of a previous LHP, the 4-O Ranch.

Proposed deer and elk hunting on the Grande Ronde Vista LHP include:

Landowner permits: seven deer permits (three point minimum) and 23 elk permits (11 bull and 12 antlerless)

Public Special Permits: three 3-pt minimum deer permits, six youth only antlerless deer permits, six bull elk permits, and 20 antlerless only elk permits

The split of landowner and public deer and elk hunting opportunity is within the guidelines established in Commission Policy C6002.

Reasons supporting proposal:

This proposal increases public deer and elk hunting access to private land in Asotin County.

WAC 232-28-331 Game management units (GMUs) boundary descriptions – Region one

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Game management units are used to help distribute hunters and manage segments of deer and elk populations. This proposal will clarify game management unit boundaries for hunters and reduce space required for publicizing the rules, thereby reducing expenditures.

Reasons supporting proposal:

Simplifies and clarifies unit boundaries for deer and elk hunting.

WAC 232-28-332 Game management units (GMUs) boundary descriptions – Region two

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Game management units are used to help distribute hunters and manage segments of deer and elk populations. This proposal will clarify game management unit boundaries for hunters and reduce space required for publicizing the rules, thereby reducing expenditures.

Reasons supporting proposal:

Simplifies and clarifies unit boundaries for deer and elk hunting.

WAC 232-28-333 Game management units (GMUs) boundary descriptions – Region three

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Game management units are used to help distribute hunters and manage segments of deer and elk populations. This proposal will clarify game management unit boundaries for hunters and reduce space required for publicizing the rules, thereby reducing expenditures.

Reasons supporting proposal:

Simplifies and clarifies unit boundaries for deer and elk hunting.

WAC 232-28-334 Game management units (GMUs) boundary descriptions – Region four

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Game management units are used to help distribute hunters and manage segments of deer and elk populations. This proposal will clarify game management unit boundaries for hunters and reduce space required for publicizing the rules, thereby reducing expenditures.

Reasons supporting proposal:

Simplifies and clarifies unit boundaries for deer and elk hunting.

WAC 232-28-335 Game management units (GMUs) boundary descriptions – Region five

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Game management units are used to help distribute hunters and manage segments of deer and elk populations. This proposal will clarify game management unit boundaries for hunters and reduce space required for publicizing the rules, thereby reducing expenditures.

Reasons supporting proposal:

Simplifies and clarifies unit boundaries for deer and elk hunting.

WAC 232-28-336 Game management units (GMUs) boundary descriptions – Region six

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Game management units are used to help distribute hunters and manage segments of deer and elk populations. This proposal will clarify game management unit boundaries for hunters and reduce space required for publicizing the rules, thereby reducing expenditures.

Reasons supporting proposal:

Simplifies and clarifies unit boundaries for deer and elk hunting.

WAC 232-28-337 Deer and elk area descriptions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Boundary adjustments are being proposed to better address current deer and elk damage issues.

Reasons supporting proposal:

The proposed rule amendment provides the means to reduce wildlife damage issues and direct deer and elk damage hunts by adjusting elk area boundaries.

WAC 232-28-351 2009-2011 Deer general seasons and definitions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This is the third year of the 2009-11 hunting season “rule-package” and as such, few changes are recommended. Changes during “off-years” are mainly to address crop and property damage problems; changes in population levels due to environmental conditions or disease outbreaks; and to balance harvest levels with established population objectives.

The major issue and purpose for recommending changes to the deer general season rules are to address the white-tailed deer declines in northeast Washington caused by the harsh winters of 2008 and 2009. The Commission is being asked to consider:

- Reducing the archery antlerless opportunity during the late season in northeast Washington to address the decline and hasten population expansion;
- Retaining a four day youth, senior, and hunters with disability antlerless white-tail season in northeast Washington to maintain some limited antlerless opportunity for these hunters; and
- Re-considering a four point white-tailed deer antler restriction for GMUs 117 and 121. The Steven’s County Commissioners and the Steven’s County Fish and Wildlife Advisory Committee formally petitioned the Fish and Wildlife Commission to adopt a four point antler restriction for GMUs 117 & 121. It is their belief that an antler point restriction would hasten population expansion and improve the general health of the deer population.

Reasons supporting proposal:

The proposal provides general season hunting opportunity for deer consistent with population and harvest objectives while addressing property damage concerns.

WAC 232-28-355 2010 Deer special permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This is the third year of the 2009-11 hunting season “rule-package” and as such, few changes are recommended. Changes during “off-years” are mainly to address crop and property damage problems; changes in population levels due to environmental conditions or disease outbreaks; and to balance harvest levels with established population objectives.

The major changes in the recommended deer permit levels are to address:

- Calendar date adjustments;
- White-tailed deer declines in northeast Washington GMUs 101-121;
- Mitigation of property damage situations;
- Add some quality mule deer permits in northeast Washington GMUs; and
- Add antlerless deer permits in the Mission and Satsop GMUs (251 & 651) consistent with population objectives for those areas.

Reasons supporting proposal:

The proposal provides special hunting permit opportunity for deer and elk consistent with population and harvest objectives while addressing property damage concerns.

WAC 232-28-356 2010 Elk special permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This is the third year of the 2009-11 hunting season “rule-package” and as such, few changes are recommended. Changes during “off-years” are mainly to address crop and property damage problems; changes in population levels due to environmental conditions or disease outbreaks; and to balance harvest levels with established population objectives.

The major changes in the recommended elk permit levels are to address:

- Calendar date adjustments;
- Mitigation of property damage situations;
- Increase bull permits in the Blue Mountains consistent with population objectives; and
- Provide additional antlerless elk permits for senior hunters.

Reasons supporting proposal:

The proposal provides special hunting permit opportunity for deer and elk consistent with population and harvest objectives while addressing property damage concerns.
