EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding:

The gray wolf population is expanding quickly in the state and there have been recent and escalating reports of wolf attacks on pets and livestock. The lambing and calving season has arrived and additional attacks are anticipated as livestock move onto open range. In addition, the number of people, pets and other domestic animals (pack animals) spending time outdoors will increase as the weather improves, raising the potential for encounters and attacks by wolves. Current regulations are limited to owners of commercial livestock and require them to obtain a permit from the department which is often not feasible in responding to an attack from a wolf. The department plans to initiate standard rule making immediately.
