

TELL WASHINGTON TO IMPROVE THE WOLF MANAGEMENT PLAN TO ALLOW FOR MORE PROTECTION FOR WASHINGTON'S NEWEST RESIDENTS!

Dear Washington Department of Fish and Wildlife,

I support many aspects of the draft wolf management plan and commend the Department for conducting a thorough scientific review of the plan. However, if this plan is to also serve as a recovery plan, **it is critical that the plan increase the number of established breeding pairs** before a delisting is proposed.

A significant number of scientific reviewers believe that the department's numbers for delisting were low, especially since the plan relies on natural migration from areas outside the state for recovery.
