Summary

In the states of the U.S. and the provinces of Canada, there exist numerous departments and agencies responsible for the management and control of cervids. These agencies have adopted various rules and regulations to govern the importation and movement of cervids and their products. The table below provides a summary of the current status and requirements for cervid importation and movement in each state and province.

<table>
<thead>
<tr>
<th>State/Province</th>
<th>Agency</th>
<th>Legal Status and responsible agencies</th>
<th>Key Requirements and Observations</th>
</tr>
</thead>
</table>

### States

**Alaska**

Department of Natural Resources

- **Agency:** Department of Natural Resources
- **Key Requirements:**
  - Controlled importation of cervids
  - Movement within state requires permit
  - Sample collections for Chronic Wasting Disease (CWD) testing

**Arizona**

Department of Game and Fish

- **Agency:** Department of Game and Fish
- **Key Requirements:**
  - Sample collections for CWD testing
  - Movement within state requires permit

**California**

Department of Food & Agriculture

- **Agency:** Department of Food & Agriculture
- **Key Requirements:**
  - Sample collections for CWD testing
  - Movement within state requires permit

**Colorado**

Department of Public Health & Environment

- **Agency:** Department of Public Health & Environment
- **Key Requirements:**
  - Sample collections for CWD testing
  - Movement within state requires permit

**Connecticut**

Department of Environmental Protection

- **Agency:** Department of Environmental Protection
- **Key Requirements:**
  - Sample collections for CWD testing
  - Movement within state requires permit

### Provinces

**Ontario**

Ministry of Natural Resources

- **Agency:** Ministry of Natural Resources
- **Key Requirements:**
  - Sample collections for CWD testing
  - Movement within state requires permit

**Quebec**

Ministère des Ressources naturelles et de la Faune

- **Agency:** Ministère des Ressources naturelles et de la Faune
- **Key Requirements:**
  - Sample collections for CWD testing
  - Movement within state requires permit

### Observations

- **CWD Testing:**
  - Sample collections are required for CWD testing, with specific intervals and conditions.

- **Movement Permits:**
  - Movement of cervids within each state or province requires a permit.

- **Sample Collections:**
  - Sample collections for CWD testing are mandatory and occur at specific intervals.

- **Biosecurity Measures:**
  - Measures are in place to prevent the introduction of CWD into the state or province.

- **Public Awareness:**
  - Education and awareness programs are in place to inform the public about CWD and biosecurity practices.

### Additional Information

- **CWD Distribution:**
  - CWD has been detected in 25 states and three provinces in the U.S. and Canada.

- **Statutory Information:**
  - Staurospira papillata is present in at least 1% of the population.

- **Responsible Agencies:**
  - Agencies responsible for managing cervids include departments of natural resources, agriculture, and health.

- **Compliance:**
  - Agencies enforce compliance with regulations to prevent the introduction and spread of CWD.

**Note:** This summary is based on the information provided in the document and includes key requirements and observations for the importation and movement of cervids in the U.S. and Canada as of a specific date.
Georgia

The Georgia Department of Natural Resources (DNR) regulates the importation and transport of cervids to prevent the spread of disease and protect wildlife resources. The superintendent of the Department of Natural Resources has the authority to regulate the transport and importation of cervids, which includes the wildlife species that are legally permitted in Georgia. Thus, anyone handling or moving animals must obtain a certified health certificate from a Georgia-licensed veterinarian.

Director: Charles Kilpatrick; State Deer Project Coordinator: (770) 784-3059; kepeterson@boah.in.gov; 317-227-0314

Importation of cervids to Georgia is allowed if:

- The deer enter from another state or country after the DNR has determined that the state or country from which they are coming is not a risk to the state's wildlife.
- The deer meet specific health requirements, such as having a certificate of veterinary inspection.
- The deer have been tested for diseases such as brucellosis and tuberculosis.
- The deer have been monitored for at least 5 years and have had no positive test results for CWD.
- The deer have been enrolled in a CWD monitoring program.

Contact: Melinda Cosgrove (cosgrovem1@michigan.gov  517-336-5043)

Illinois

The Illinois Department of Natural Resources (IDNR) regulates the importation and transport of cervids to prevent the spread of disease and protect wildlife resources. The IDNR has the authority to regulate the transport and importation of cervids, which includes the wildlife species that are legally permitted in Illinois. Thus, anyone handling or moving animals must obtain a certified health certificate from a Illinois-licensed veterinarian.

Director: Tom Schmitz; State Deer Project Coordinator: (770) 784-3059; kepeterson@boah.in.gov; 317-227-0314

Importation of cervids to Illinois is allowed if:

- The deer enter from another state or country after the IDNR has determined that the state or country from which they are coming is not a risk to the state's wildlife.
- The deer meet specific health requirements, such as having a certificate of veterinary inspection.
- The deer have been tested for diseases such as brucellosis and tuberculosis.
- The deer have been monitored for at least 5 years and have had no positive test results for CWD.
- The deer have been enrolled in a CWD monitoring program.

Contact: Melinda Cosgrove (cosgrovem1@michigan.gov  517-336-5043)

Indiana

The Indiana Department of Natural Resources (DNR) regulates the importation and transport of cervids to prevent the spread of disease and protect wildlife resources. The DNR has the authority to regulate the transport and importation of cervids, which includes the wildlife species that are legally permitted in Indiana. Thus, anyone handling or moving animals must obtain a certified health certificate from a Indiana-licensed veterinarian.

Director: Tom Schmitz; State Deer Project Coordinator: (770) 784-3059; kepeterson@boah.in.gov; 317-227-0314

Importation of cervids to Indiana is allowed if:

- The deer enter from another state or country after the DNR has determined that the state or country from which they are coming is not a risk to the state's wildlife.
- The deer meet specific health requirements, such as having a certificate of veterinary inspection.
- The deer have been tested for diseases such as brucellosis and tuberculosis.
- The deer have been monitored for at least 5 years and have had no positive test results for CWD.
- The deer have been enrolled in a CWD monitoring program.

Captive Cervids

Kane County - Illinois Department of Agriculture and Natural Resources  
Contact: Chasity Anderson, (207) 941-4477, Anderson.paul.anderson@bah.state.mn.us  
Importation of cervids (other than deer) into Kane County is prohibited.  

Kentucky - Department of Agriculture  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Maine - Maine Department of Inland Fisheries and Wildlife  
Contact: Lee Kantar, (207) 941-4477, leekantar@maine.gov  
Importation of cervids is prohibited.  

Massachusetts - Massachusetts Department of Health and Human Services  
Contact: Lee Kantar, (207) 941-4477, leekantar@maine.gov  
Importation of cervids is prohibited.  

Maryland - Maryland Department of Natural Resources  
Contact: pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Minnesota - Minnesota Department of Natural Resources  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Missouri - Missouri Department of Conservation  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

New York - New York State Department of Environmental Conservation  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

North Dakota - North Dakota Department of Fish and Wildlife  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Ohio - Ohio Department of Natural Resources  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Oklahoma - Oklahoma Department of Agriculture  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Oregon - Oregon Department of Fish and Wildlife  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Pennsylvania - Pennsylvania Department of Agriculture  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Rhode Island - Rhode Island Department of Environmental Management  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

South Carolina - South Carolina Department of Natural Resources  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

South Dakota - South Dakota Department of Agriculture  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Tennessee - Tennessee Wildlife Resources Agency  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Texas - Texas Parks and Wildlife Department  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

U.S. Virgin Islands - U.S. Virgin Islands Department of Agriculture  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Virginia - Virginia Department of Game and Inland Fisheries  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Washington - Washington Department of Fish and Wildlife  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

West Virginia - West Virginia Department of Agriculture  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Wisconsin - Wisconsin Department of Natural Resources  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

Wyoming - Wyoming Department of Game and Fish  
Contact: Sonja Jayne, (410) 827-8612, pjayne@dnr.state.md.us  
Importation of cervids is prohibited.  

NA - Implemented. Developing surveillance program for captive cervids.  

In Process of Developing or Implementing New or Revised regulations.  

For more information contact MIFA's Chronic Wasting Disease and Cervidae Program Office at (517) 336-1700 or via email (james.mcconnell@state.mi.us) to receive copies of the most current surveillance, monitoring, and disease control plan.

**No:** Indicates no CWD regulations apply in this state. **No Ban:** Indicates no CWD testing program exists in this state.

### Chronic Wasting Disease and Cervidae Regulations in North America

**Chronic Wasting Disease (CWD):** A wasting disease of cervid species that is caused by a novel prion and is transmitted through the nervous system and other body fluids. It is characterized by progressive neurological deterioration and death. CWD is not contagious to humans or domestic livestock.

**CWD Found in Free-Ranging Cervids:**
- New Hampshire: No
- Mississippi: No
- Missouri: No
- Nebraska: No
- Arkansas: No
- Wisconsin: No
- Michigan: No
- Minnesota: No
- Montana: No

- Florida: No
- Georgia: No
- South Carolina: No
- North Carolina: No
- Virginia: No
- West Virginia: No
- Maryland: No
- Delaware: No
- New Jersey: No

**Additional CWD Regulations**
- CWD Testing Program for Captive Cervids
- CWD Testing Program for Wildlife
- Banning Feeding
- Banning Ban on Movement of Animal Parts
- CWD Found in Free-Ranging Cervids

*Note: The table above provides a summary of CWD regulations and findings across various states.*
**New Mexico**

The New Mexico Department of Game and Fish is responsible for the maintenance of Quarantine Premises established for CWD. The department also regulates the transportation of cervids in New Mexico. The department issues licenses to possess captive bred deer and elk, and the state has a mandatory whole herd diagnostic program to monitor the status of cervids in the state. The department also enforces regulations related to the movement of animal parts and the selling of feed. The Department of Game and Fish, New Mexico Livestock Board, (505) 827-4545, Project Leader, Dr. Allison Weiser, awiezer@doa.state.nm.us, is the contact for the department.

**Enforcement Div. (505) 476-8064; Contact for glink@nd.gov, (701) 328-6331**

**North Carolina**

[26x829]North Carolina**

The Department of Agriculture & Consumer Services has established a program to monitor the status of cervids in North Carolina. The program includes monitoring of breeding facilities and the transportation of cervids in North Carolina. The program is reviewed by the Wildlife Resources Commission, and regulations must be discussed in the House or Senate.

**3203**

**State/Province Agency**

**Enforcement Div. (505) 476-8064; Contact for glink@nd.gov, (701) 328-6331**

**California**

The California Department of Fish and Game, Division of Wildlife, (916) 322-3257, is responsible for the maintenance of Quarantine Premises established for CWD. The department also regulates the transportation of cervids in California. The department issues licenses to possess captive bred deer and elk, and the state has a mandatory whole herd diagnostic program to monitor the status of cervids in the state. The department also enforces regulations related to the movement of animal parts and the selling of feed. The Department of Fish and Game, Division of Wildlife, (916) 322-3257, is the contact for the department.

**Enforcement Div. (916) 322-3257; Contact for dixon.wlicensing@wildlife.ca.gov, (916) 322-3236**

**New York**

The New York State Department of Environmental Conservation, (518) 402-9000, is responsible for the maintenance of Quarantine Premises established for CWD. The department also regulates the transportation of cervids in New York. The department issues licenses to possess captive bred deer and elk, and the state has a mandatory whole herd diagnostic program to monitor the status of cervids in the state. The department also enforces regulations related to the movement of animal parts and the selling of feed. The New York State Department of Environmental Conservation, (518) 402-9000, is the contact for the department.

**Enforcement Div. (518) 402-9000; Contact for sbilling@g.enf.dec.ny.gov, (518) 402-9000**

**North Dakota**

The North Dakota Department of Agriculture, (701) 663-1921, is responsible for the maintenance of Quarantine Premises established for CWD. The department also regulates the transportation of cervids in North Dakota. The department issues licenses to possess captive bred deer and elk, and the state has a mandatory whole herd diagnostic program to monitor the status of cervids in the state. The department also enforces regulations related to the movement of animal parts and the selling of feed. The North Dakota Department of Agriculture, (701) 663-1921, is the contact for the department.

**Enforcement Div. (701) 663-1921; Contact for dradway@nd.gov, (701) 663-1900**

**South Dakota**

The South Dakota Game, Fish and Parks, (605) 773-3200, is responsible for the maintenance of Quarantine Premises established for CWD. The department also regulates the transportation of cervids in South Dakota. The department issues licenses to possess captive bred deer and elk, and the state has a mandatory whole herd diagnostic program to monitor the status of cervids in the state. The department also enforces regulations related to the movement of animal parts and the selling of feed. The South Dakota Game, Fish and Parks, (605) 773-3200, is the contact for the department.

**Enforcement Div. (605) 773-3200; Contact for rscott@gsf.state.sd.us, (605) 773-3201**

**Ohio**

The Ohio Department of Natural Resources, Division of Wildlife, (614) 265-3255, is responsible for the maintenance of Quarantine Premises established for CWD. The department also regulates the transportation of cervids in Ohio. The department issues licenses to possess captive bred deer and elk, and the state has a mandatory whole herd diagnostic program to monitor the status of cervids in the state. The department also enforces regulations related to the movement of animal parts and the selling of feed. The Ohio Department of Natural Resources, Division of Wildlife, (614) 265-3255, is the contact for the department.

South Carolina Department of Natural Resources; Contact: Dr. Dustin O. Anglin, ronald.e.anglin@STATE.OR.US (503-947-6312)

Oregon Department of Fish & Wildlife; Contact: Brian Tefft, brian.tefft@STATE.OR.US (503-947-6303)

Rhode Island: Reportable animal disease, quarantine and jurisdiction

Contact: Ryan Schoeneberg; june.schoeneberg@STATE.RI.US (401-224-9310)

Washington Department of Fish & Wildlife Department of Agriculture (import, jurisdiction)

5/21/02: Department of Agriculture suspended importation of cervids (last year of approved importation program for this species) and captive cervids.  Clemson University Livestock Department has ultimate jurisdiction over captive cervids

SCDNR, ruthc@dnr.sc.gov

Standard Regulations * (listed only if different or with jurisdiction)

South Dakota: Department of Natural Resources; Contact: Dr. Gary S. Rehfeld, gary.rehfeld@STATE.SD.US (605-773-3050)

No cervids from geographic areas where CWD is detected.  (Previous regulations: Require proof that there is no CWD in area.)

No baiting allowed. No ban at this time.

No cervids from areas where CWD has been reported must be disinfected prior to entering the state. The cephalic bones, heart, liver, lungs, and spleen are the parts prohibited in the remaining 28 counties by the SCDNR, but is not prohibited in the counties where parts are only banned from deer harvesting.

Texas: Department of Agriculture; Contact: Don D. Bohannon, don.d.bohannon@STATE.TX.US (512-463-8953)

Texas Animal Health Commission; Contact: Don D. Bohannon, don.d.bohannon@STATE.TX.US (512-463-8953)

OSCAR - BSE infected from other states cannot enter Texas.  Cervid activities must be limited to their premises.  Cervids must be tested prior to entry.

Oklahoma Department of Agriculture (import, surveillance, part of USDA APHIS National Veterinary Services Laboratory - AVSAL)

Importation of cervids has not been permitted, with changes for the approval process to reflect this, which will be transplanted (2005).

Stabilization of infected herd, begun in 1980, to be transplanted (2005).  No cervids from geographic areas of SD continues to indicate a lack of this disease.

For intrastate movement qualified status, the receiving facility must have CWD samples collected and submitted by the producer to the Wildlife Health Lab for entry into the Cervid Health Registry.  At least 3, 0% of total herd must be tested annually.  (Previous regulations: Require proof that there is no CWD in area.)

Cervid mortality since Jan. 1, 2000, no herd ever enrolled in the voluntary status monitoring program.  TAHC &/or TPWD:

Ranging Native Cervids (previous regulations: March 1, 2000, cervid elk areas are restricted to areas of SD.  All remaining areas of SD continues to indicate a lack of this disease.

All remaining areas of SD continues to indicate a lack of this disease.

Cervid regulations.

All cervids from geographic areas where CWD is detected.  (Previous regulations: Require proof that there is no CWD in area.)

No cervids from geographic areas of SD continues to indicate a lack of this disease.

No cervids from geographic areas where CWD is detected.  (Previous regulations: Require proof that there is no CWD in area.)

All cervids from geographic areas of SD continues to indicate a lack of this disease.

All cervids from geographic areas of SD continues to indicate a lack of this disease.

No cervids from geographic areas where CWD is detected.  (Previous regulations: Require proof that there is no CWD in area.)

The Canadian Council on Animal Care (CCAC) oversees the implementation of animal care and use policies in Canada. The CCAC issues guidelines and standards for the care and use of animals in research, teaching, and testing, and ensures compliance with these standards through inspections and audits. The CCAC also provides recommendations to federal and provincial government agencies on animal care and use policies.
**State’s information not recently updated.**

* Standard Regulations are: 1) Certification of Veterinary Inspection (health certificate), 2) Import Permit, 3) Negative brucellosis test (within 30-60 days of import), 4) Negative tuberculosis test (within 30-90 days of import). Saskatchewan Agriculture Permit required for import. Sika, red deer and Saskatchewan captive cervids.
