

Cod (Gadidae)

(click on common name for further information)

Common Name	Scientific Name
Pacific Cod	<i>Gadus macrocephalus</i>
Pacific Hake	<i>Merluccius productus</i>
Walleye Pollock	<i>Theragra chalcogramma</i>

Pacific Cod

Gadus macrocephalus

Washington Distribution by County* 	State Status: Candidate Federal Status: Species of Concern
	PHS Species Criteria #1, #2, #3
	Priority Area - Breeding areas - Regular concentrations
	Online information and guidelines for management of Pacific Cod : NatureServe Species Report

Pacific Hake

Merluccius productus

Washington Distribution by County* 	State Status: Candidate Federal Status: Species of Concern
	PHS Species Criteria #1, #2, #3
	Priority Area - Breeding areas - Regular concentrations
	Online information and guidelines for management of Pacific Hake : NatureServe Species Report

* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

Walleye Pollock

Theragra chalcogramma

Washington Distribution by County* 	State Status: Candidate Federal Status: Species of Concern
	PHS Species Criteria #1, #2, #3
	Priority Area <ul style="list-style-type: none">- Breeding areas- Regular concentrations
	Online information and guidelines for management of Walleye Pollock: NatureServe Species Report
