

## Marine Birds

(click on common name for further information)

Common Name	Scientific Name
<a href="#">American White Pelican</a>	<i>Pelecanus erythrorhynchos</i>
<a href="#">Brandt's Cormorant</a>	<i>Phalacrocorax penicillatus</i>
<a href="#">Brown Pelican</a>	<i>Pelecanus occidentalis</i>
<a href="#">Cassin's Auklet</a>	<i>Ptychoramphus aleuticus</i>
<a href="#">Clark's Grebe</a>	<i>Aechmophorus clarkii</i>
<a href="#">Common Loon</a>	<i>Gavia immer</i>
<a href="#">Common Murre</a>	<i>Uria aalge</i>
<a href="#">Eastern Washington breeding concentrations of: Grebes, Cormorants</a>	N/A
<a href="#">Eastern Washington breeding: Terns</a>	N/A
<a href="#">Marbled Murrelet</a>	<i>Brachyramphus marmoratus</i>
<a href="#">Short-tailed Albatross</a>	<i>Phoebastria albatrus</i>
<a href="#">Tufted Puffin</a>	<i>Fratercula cirrhata</i>
<a href="#">Western grebe</a>	<i>Aechmophorus occidentalis</i>
<a href="#">Western Washington breeding concentrations of: Cormorants, Storm-petrels, Terns, Alcids</a>	N/A
<a href="#">Western Washington nonbreeding concentrations of: Loons, Grebes, Cormorants, Fulmar, Shearwaters, Storm-petrels, Alcids</a>	N/A

**American White Pelican**  
*Pelecanus erythrorhynchos*

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> Endangered  <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#1, #2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> <li>- Regular concentrations</li> </ul>
	<p>Online information and guidelines for management of <b>American White Pelican:</b></p> <p><a href="#">Management Recommendations for Washington's Priority Species: Birds</a></p> <p><a href="#">NatureServe Species Report</a></p>

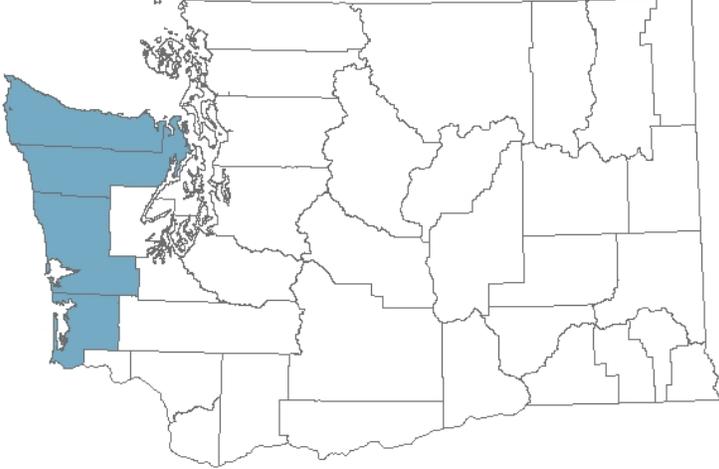

**Brandt's Cormorant**  
*Phalacrocorax penicillatus*

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> Candidate  <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#1, #2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> <li>- Regular concentrations</li> </ul>
	<p>Online information and guidelines for management of <b>Brandt's Cormorant</b></p> <p><a href="#">NatureServe Species Report</a></p>

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

## Brown Pelican

*Pelecanus occidentalis*

<b>Washington Distribution by County*</b> 	<b>State Status:</b> Endangered <b>Federal Status:</b> Species of Concern
	<b>PHS Species Criteria</b> #1, #2
	<b>Priority Area</b> <ul style="list-style-type: none"><li>- Regular concentrations in foraging and resting areas</li></ul>
	Online information and guidelines for management of <b>Brown Pelican:</b> <a href="#">NatureServe Species Report</a>

## Cassin's Auklet

*Ptychoramphus aleuticus*

<b>Washington Distribution by County*</b> 	<b>State Status:</b> Candidate <b>Federal Status:</b> Species of Concern
	<b>PHS Species Criteria</b> #1, #2
	<b>Priority Area</b> <ul style="list-style-type: none"><li>- Breeding areas</li></ul>
	Online information and guidelines for management of <b>Cassin's Auklet:</b> <a href="#">NatureServe Species Report</a>

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

## Clark's Grebe

*Aechmophorus clarkii*

<b>Washington Distribution by County*</b> 	<b>State Status:</b> Candidate <b>Federal Status:</b> None
	<b>PHS Species Criteria</b>  #1, #2
	<b>Priority Area</b> <ul style="list-style-type: none"><li>- Regular concentrations</li><li>- Breeding areas</li></ul>
	Online information and guidelines for management of <b>Clark's Grebe</b> : <a href="#">NatureServe Species Report</a>

## Common Loon

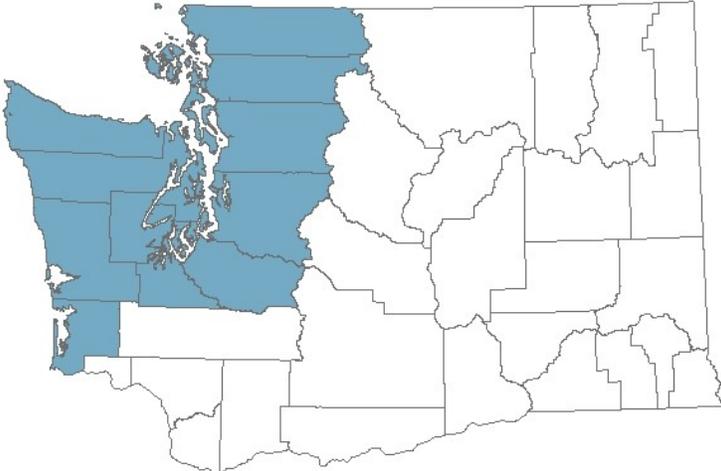

*Gavia immer*

<b>Washington Distribution by County*</b> 	<b>State Status:</b> Sensitive <b>Federal Status:</b> None
	<b>PHS Species Criteria</b>  #1, #2
	<b>Priority Area</b> <ul style="list-style-type: none"><li>- Breeding sites</li><li>- Migratory stopovers</li><li>- Regular concentrations</li></ul>
Online information and guidelines for management of <b>Common Loon</b> : <a href="#">Management Recommendations for Washington's Priority Species: Birds</a> <a href="#">Single Page PHS Management Recommendations: Common Loon</a> <a href="#">NatureServe Species Report</a>	

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

# Common Murre

*Uria aalge*

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> Candidate  <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#1, #2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> <li>- Regular concentrations</li> </ul>
	<p>Online information and guidelines for management of <b>Common Murre:</b></p> <p><a href="#">Management Recommendations for Washington's Priority Species: Birds</a></p> <p><a href="#">NatureServe Species Report</a></p>

## Eastern Washington breeding concentrations of:

Grebes (Podicipedidae)  
 Cormorants (Phalacrocoracidae)

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> None  <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> </ul>

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

## Eastern Washington breeding:

Terns (Laridae)

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> None <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> </ul>

## Marbled Murrelet

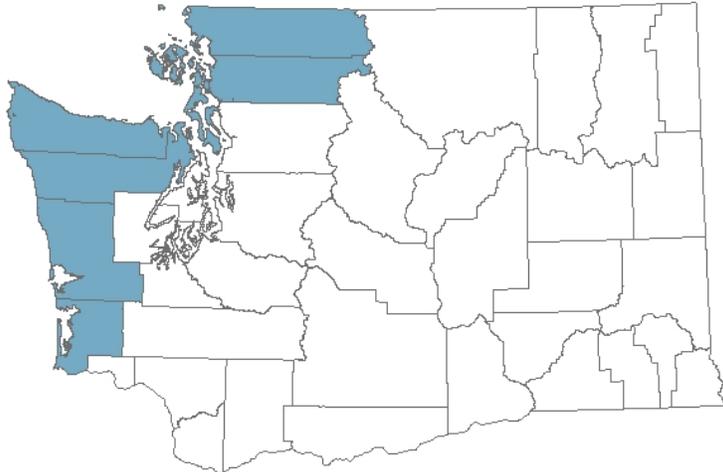

*Brachyramphus marmoratus*

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> Threatened <b>Federal Status:</b> Threatened</p>
	<p><b>PHS Species Criteria</b></p> <p>#1, #2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Any occurrence in suitable habitat</li> </ul>
	<p>Online information and guidelines for management of <b>Marbled Murrelet</b>:</p> <p><a href="#">Marbled Murrelet Recovery Plan</a></p> <p><a href="#">NatureServe Species Report</a></p>

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

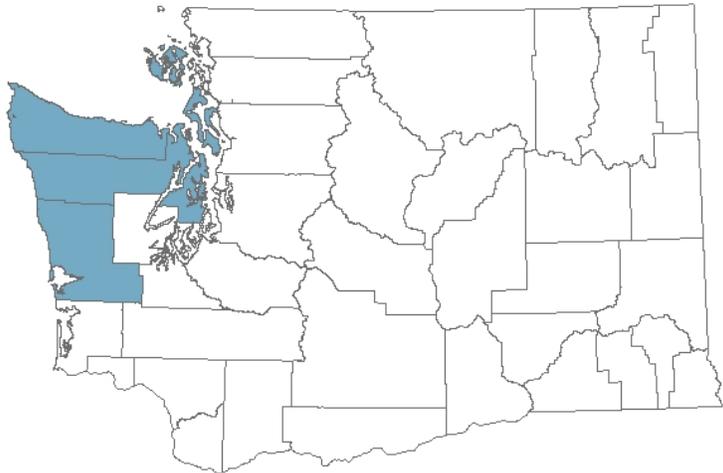

## Short-tailed Albatross

*Phoebastria albatrus*

<b>Washington Distribution by County*</b> 	<b>State Status:</b> Candidate <b>Federal Status:</b> Endangered
	<b>PHS Species Criteria</b> #1
	<b>Priority Area</b> - Any occurrence
	Online information and guidelines for management of <b>Short-tailed Albatross:</b> <a href="#">NatureServe Species Report</a>

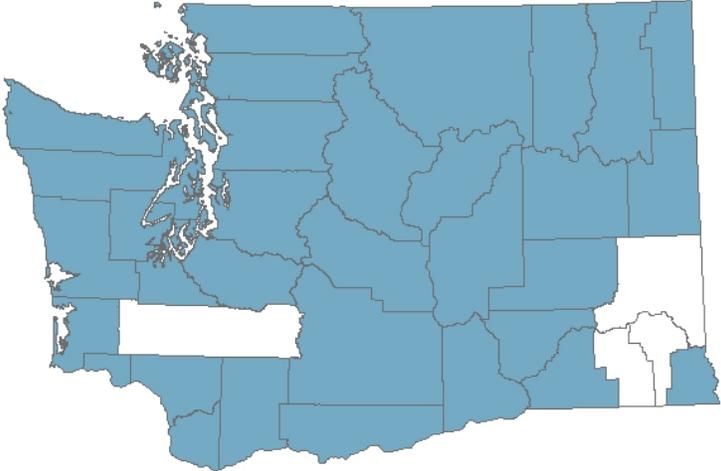

## Tufted Puffin

*Fratercula cirrhata*

<b>Washington Distribution by County*</b> 	<b>State Status:</b> Candidate <b>Federal Status:</b> Species of Concern
	<b>PHS Species Criteria</b> #1, #2, #3
	<b>Priority Area</b> - Breeding areas - Regular concentrations
	Online information and guidelines for management of <b>Tufted Puffin:</b> <a href="#">NatureServe Species Report</a>

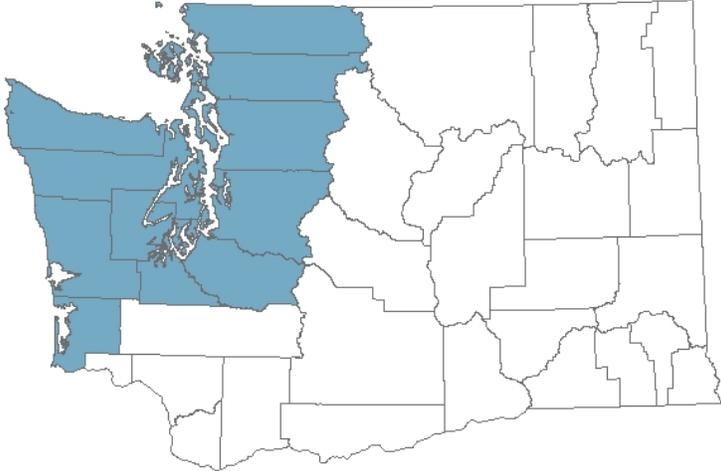

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

**Western Grebe**  
*Aechmophorus occidentalis*

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> Candidate  <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#1, #2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> <li>- Regular concentrations</li> <li>- Migratory stopovers</li> <li>- Regular occurrences in winter</li> </ul>
	<p>Online information and guidelines for management of <b>Western Grebe:</b></p> <p><a href="#">NatureServe Species Report</a></p>

**Western Washington breeding concentrations of:**

- Cormorants (Phalacrocoracidae)
- Storm-petrels (Hydrobatidae)
- Terns (Laridae)
- Alcids (Alcidae)

<p><b>Washington Distribution by County*</b></p> 	<p><b>State Status:</b> None  <b>Federal Status:</b> None</p>
	<p><b>PHS Species Criteria</b></p> <p>#2</p>
	<p><b>Priority Area</b></p> <ul style="list-style-type: none"> <li>- Breeding areas</li> </ul>

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

Western Washington nonbreeding concentrations of:

- Loons (Gaviidae)
- Grebes (Podicipedidae)
- Cormorants (Phalacrocoracidae)
- Fulmar (Procellariidae)
- Shearwaters (Procellariidae)
- Storm-petrels (Hydrobatidae)
- Alcids (Alcidae)

<b>Washington Distribution by County*</b> 	<b>State Status:</b> None <b>Federal Status:</b> None
	<b>PHS Species Criteria</b> #2
	<b>Priority Area</b> - Regular concentrations

\* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year.
