

Trout, Salmon, Whitefish (Salmonidae)

(click on common name for further information)

Common Name	Scientific Name
Bull Trout/ Dolly Varden	<i>Salvelinus confluentus/ S. malma</i>
Chinook	<i>Oncorhynchus tshawytscha</i>
Chum Salmon	<i>Oncorhynchus keta</i>
Coastal Resident/ Searun Cutthroat	<i>Oncorhynchus clarki clarki</i>
Coho	<i>Oncorhynchus kisutch</i>
Kokanee	<i>Oncorhynchus nerka</i>
Pink Salmon	<i>Oncorhynchus gorbuscha</i>
Pygmy Whitefish	<i>Prosopium coulteri</i>
Rainbow Trout, Steelhead, Inland Redband Trout	<i>Oncorhynchus mykiss</i>
Sockeye Salmon	<i>Oncorhynchus nerka</i>
Westslope Cutthroat	<i>Oncorhynchus clarki lewisi</i>

Bull Trout - Dolly Varden

Salvelinus confluentus - *S. malma*

<p>Washington Distribution by County</p> 	<p>BULL TROUT State Status: Candidate Federal Status: Threatened</p> <p>DOLLY VARDEN State Status: None Federal Status: None</p>
	<p>PHS Species Criteria</p> <p>#1, #2, #3</p>
	<p>Priority Area</p> <p>- Any Occurrence</p>
<p>Online information and guidelines for management of Bull Trout – Dolly Varden:</p> <p>Bull Trout Recovery Plan</p> <p>Puget Sound Salmon Recovery Plan (Chinook, Chum, Bull Trout)</p> <p>Land Use Planning for Salmon, Steelhead, and Trout</p> <p>NatureServe Species Report (Bull Trout)</p> <p>NatureServe Species Report (Dolly Varden)</p>	

* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. Occurrences of a species in other counties are possible as new information becomes available, and maps will be updated as necessary at the beginning of each calendar year. The date shown in the footer identifies when the last update was made to maps found on this page.

Chinook Salmon
Oncorhynchus tshawytscha

<p>Washington Distribution by County*</p> 	<p>State Status: Candidate Federal Status: Threatened (Upper Columbia Spring run is Endangered)</p>
	<p>PHS Species Criteria</p> <p>#1, #2, #3</p>
	<p>Priority Area</p> <p>- Any Occurrence</p>

Pink Salmon

Oncorhynchus gorbuscha

Washington Distribution by County* 	State Status: None Federal Status: None
	PHS Species Criteria #2, #3
	Priority Area - Any Occurrence
	Online information and guidelines for management of Pink Salmon: NatureServe Species Report

Pygmy Whitefish

Prosopium coulteri

Washington Distribution by County* 	State Status: Sensitive Federal Status: Species of Concern
	PHS Species Criteria #1, #2
	Priority Area - Any Occurrence
	Online information and guidelines for management of Pygmy Whitefish: NatureServe Species Report

* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat. Counties that are part of the recovery area for Threatened and Endangered species are also shown as part of a species distribution. The date shown in the footer identifies when the last update was made to maps found on this page.

Sockeye Salmon

Oncorhynchus nerka

Washington Distribution by County* 	State Status: Candidate Federal Status: Threatened – Ozette Lake Endangered – Snake River
	PHS Species Criteria #1, #2, #3
	Priority Area - Any Occurrence
<p>Online information and guidelines for management of Sockeye Salmon:</p> <p>Snake River Salmon Recovery Plan (Bull Trout, Steelhead, Chinook, Sockeye)</p> <p>Land Use Planning for Salmon, Steelhead, and Trout</p> <p>NatureServe Species Report</p>	

Westslope Cutthroat

Oncorhynchus clarki lewisi

Washington Distribution by County* 	State Status: None Federal Status: None
	PHS Species Criteria #3
	Priority Area - Any Occurrence
<p>Online information and guidelines for management of Westslope Cutthroat:</p> <p>NatureServe Species Report</p>	

* Distribution maps show the counties where a species is known to occur in one of its [priority areas](#), as well as the counties where a species is likely to occur in one of its priority areas due to the presence of suitable habitat.
