

## 2006

### F-84-B-21

#### Boating Access Area Maintenance Aquatic Education

The State is using Sport Fish dollars to maintain and inspect the many fishing/boating access sites they have spread throughout the state. Routine repair and upkeep of these facilities is completed by regional management personnel. Activities include general clean-up, fence repair, grading and gravelling roads and parking areas, toilet pumping, litter control, sign repair, and landscaping and drainage. This grant also covers the purchase of maintenance equipment to support these activities. The goal is to provide more aesthetically pleasing and functional access for the many anglers and boaters using these facilities.

Beginning Date: July 1, 2006

Ending Date: June 30, 2007

Federal Sport Fish Restoration: \$867,968

State Match: \$289,216

Total: \$1,156,912

Congressional Districts): All
