

The Washington Department of Fish and Wildlife (WDFW) developed the HammaHamma Fall Chinook Hatchery and Genetic Management Plan (HGMP), placed a draft version on our web page on January 16, 2013, announced its availability, and solicited public comment through February 15, 2013.

Statements were received from: Mr. Andy Appleby and Dr. Peter Paquet representing the Hatchery Scientific Review Group (HSRG) – Washington (posted under a separate cover), however, no other comments were presented
