

## **WDFW Help**

### **How can I report diseased wildlife that I observe?**

- 

For diseased wildlife, contact the WDFW Wildlife Health Section of the Wildlife Program at (509) 892-1001 ext. 326.

WDFW has re-established a hotline to report dead or ill swans in Whatcom, Skagit and Snohomish counties in order to monitor lead poisoning. Please call (360) 466-4345, ext. 266 to make a report.

You can report Elk Hoof Disease sightings through the WDFW website at [http://wdfw.wa.gov/conservation/health/hoof\\_disease/](http://wdfw.wa.gov/conservation/health/hoof_disease/).

For more information, see WDFW's Wildlife Health website at <http://wdfw.wa.gov/conservation/health/>.
