Agenda Item 20: Special Closures and Boundary Regulations – **Rule Action**

Prepared By: Jerry Nelson

Presented By: Jerry Nelson, Deer and Elk Section Manager, Wildlife Program

Background:

Department staff will provide a brief overview to the Commission on proposed amendments to the following WACs: 232-28-248 Special closures and firearm restriction areas; 232-28-333 Game management units (GMUs) boundary descriptions – Region three; 232-28-335 Game management units (GMUs) boundary descriptions – Region five; 232-28-336 Game management units (GMUs) boundary descriptions – Region six; and 232-28-337 Deer and elk area descriptions. This will include any changes resulting from the March 6-7, 2009 Commission meeting in Ellensburg.

The 2009-2011 hunting issues brought before the public this summer and fall included topics related to Game Management Units and Deer and Elk Areas. There was strong support for the boundary changes that were proposed for GMUs 568, 574, 578, and 388. In addition groups represented on the Game Management Advisory Council provided input on a number of issues related to these WACs. Many of the proposals are designed to address problems with damage and nuisance animals. The following are recommended changes for GMUs, Deer Areas, Elk Areas, and Firearm Restriction Areas:

- Boundary changes are proposed for GMUs 568, 574, 578, and 388 to better match the landscape and habitat within GMU and to better match deer management objectives without complicating elk management objectives.
- An adjustment to the boundary between GMUs 505 and 510 near Davis Lake would allow more antlerless elk harvest to take place during archery and muzzleloader elk seasons in this problem area.
- A discrepancy on the border between GMU 673 and GMU 506 was fixed by emergency rule. That correction needs to be made permanent in the WAC.
- New Elk Areas are needed in Regions 1 and 4 to accommodate new elk hunts (North Bend) or to better direct elk hunters to specific sites. Elk Area boundaries need adjusting in Regions 1, 2, 3, 5, and 6
- New Deer Areas are needed to deal with damage and nuisance deer in Regions 1, 2, and 5. Deer Area boundaries need adjusting in Regions 3, 5, and 6.

Policy Issue(s) you are bringing to the Commission for consideration:

- Shift the boundaries in GMUs 568, 574, 578, and 388 so that management and harvest strategies better match the habitat and the deer and elk populations within GMUs.
- Provide the means to address wildlife damage and nuisance issues by modifying existing boundaries or by creating new Deer and Elk Areas.
- Maintain limited deer and elk hunting opportunity adjacent to expanding human development.

Public involvement process used and what you learned:

The Department conducted an extensive public involvement process to develop these three-year hunting season cycle recommendations. In June 2008, the Department received nearly 4,000 responses to a scoping survey that was developed to determine the major issues that were important to the public. After the initial scoping phase, the issues were refined and preferred alternatives to address those issues were developed. The alternatives were discussed at more than ten public meetings held throughout the state in August and September. Nearly 5,000 people commented on the Alternatives, which were presented at the public meetings and available online for approximately seven weeks. In early January, an email was sent to over 50,000 hunters announcing that the proposed recommendations were online and would be available for comment until February 20. A postcard was mailed to approximately 800 organizations and individuals informing them of the opportunity to provide comments on the proposed regulations. Oral public testimony (if any was received) from the March 6-7, 2009 Commission meeting is located at the end of this agenda item. Advisory groups were utilized throughout the process. The Game Management Advisory Council is in agreement with the proposed changes.

Action requested (identify the specific Commission decisions you are seeking):

Amend WACs 232-28-248 Special closures and firearm restriction areas; 232-28-333 Game management units (GMUs) boundary descriptions – Region three; 232-28-335 Game management units (GMUs) boundary descriptions – Region five; 232-28-336 Game management units (GMUs) boundary descriptions – Region six; and 232-28-337 Deer and elk area descriptions, as presented.

Draft motion language:

I move to amend WAC 232-28-248; 232-28-333; 232-28-335; 232-28-336; and 232-28-337, as proposed.

Justification for Commission action:

Maintains discernable GMU boundaries. Provides recreational opportunity for the citizens of Washington, helps reduce wildlife damage to agricultural crops, and protects deer and elk from overharvest.

Communications plan:

- News Release
- Hunting Pamphlets
- Direct email to approximately 55,000 hunters

AMENDATORY SECTION (Amending Order 06-92, filed 5/8/06, effective 6/8/06)

WAC 232-28-248 Special closures and firearm restriction areas.

RESTRICTED AND PROHIBITED HUNTING AREAS.

These areas are closed by Fish and Wildlife Commission action. Other areas may be closed to hunting by local, state or federal regulations.

IT IS ILLEGAL TO HUNT EXCEPT WHERE PROVIDED IN THE FOLLOWING AREAS:

1. Parker Lake (GMU 117, Pend Oreille County): All lands south of Ruby Creek Road (USFS Road 2489), north of Tacoma Creek Road (USFS Road 2389) and west of Bonneville Power Administration power lines are designated as "CLOSED AREA" to the hunting of wild animals and wild birds year round. The Parker Lake closure was established to provide a protected area for the Air Force Military Survival Training Program.

2. Columbia River and all the islands in the river, and the Benton County shoreline below the high water mark, and any peninsula originating on the Benton County shoreline, between Vernita Bridge (Highway 24) downstream to the old Hanford townsite powerline crossing (wooden towers) in Section 24, T 13 N, R 27 E, is designated as a "CLOSED AREA" to the hunting of wild animals and wild birds.

3. Green River (GMU 485): Except for special permit hunters, who may also take a black bear and/or cougar with the appropriate license/tag options, all lands within GMU 485 are designated as a "CLOSED AREA" to the hunting of big game by Department of Fish and Wildlife regulated hunters throughout the year. During the general westside elk season and general and late deer seasons, all lands within GMU 485 are also designated as a "CLOSED AREA" to the hunting of all wild animals (including wild birds). The City of Tacoma enforces trespass within GMU 485 on lands owned or controlled by the City during all times of the year.

4. McNeil Island: McNeil Island (part of GMU 652) is closed to the hunting of all wild animals (including wild birds) year around.

5. Loo-wit (GMU 522): Closed to hunting and trapping within GMU 522 (Loo-wit), except for the hunting of elk by special permit holders during established seasons and designated areas.

6. The Voice of America Dungeness Recreation Area—County Park in Clallam County is closed to all hunting except Wednesdays, weekends, and holidays, from the first weekend in October to the end of January.

BIG GAME CLOSURES

1. Clark, Cowlitz, Pacific, and Wahkiakum counties are closed to Columbian Whitetail Deer hunting.

2. Cathlamet: Beginning in the town of Skamokawa; then east along SR 4 to the Risk Road; then south and east along the Risk Road to Foster Road; then south along the Foster Road to the Elochoman River; then upstream along the Elochoman River to the Elochoman Valley Road (old SR 407); then west along the Elochoman Valley Road to SR 4; then east along SR 4 to SR 409; then south along SR 409 to the Cathlamet Channel of the Columbia River; then east along the north shore of the Cathlamet Channel to Cape Horn; then south in the Columbia River to the state line; then west along the state line to a point directly south of the mouth of Skamokawa Creek; then north on Skamokawa Creek to SR 4 and the point of beginning. This area is closed to all deer and elk hunting, to protect the Columbian Whitetail Deer.

3. Willapa National Wildlife Refuge: Except for Long Island, Willapa National Wildlife Refuge is closed to all big game hunting.

4. Walla Walla Mill Creek Watershed (GMU 157): All lands in the Mill Creek Watershed are designated as a "CLOSED AREA" to the hunting of all wild animals (including wild birds) except for the hunting of elk by the holders of GMU-157 special elk permits during the established open season. This area is closed to motorized vehicles. Entry is allowed only by Forest Service permit for the duration of the hunt. Any entry into the Mill Creek Watershed at other times is prohibited.

5. Westport: Closed to hunting of all big game animals on that part of Westport Peninsula lying north of State Highway 105 from the west end of the Elk River Bridge and the Schafer Island Road to the ocean beach.

FIREARM RESTRICTION AREAS

The firearm restriction areas listed below have been established by the Fish and Wildlife Commission. Exceptions to firearm restrictions may be made through rule by the Fish and Wildlife Commission. Centerfire and rimfire rifles are not legal for hunting in any of these areas.

In firearm restriction areas, hunters may hunt only during the season allowed by their tag. Archery tag holders may hunt during archery seasons with archery equipment. Muzzleloaders may hunt during muzzleloader seasons with muzzleloader equipment. Modern firearm tag holders may hunt during modern firearm seasons with bows and arrows, crossbows, muzzleloaders or revolver-type handguns meeting the equipment restrictions or legal shotguns firing slugs or buckshot.

Additional or more specific firearm restrictions may be listed under the area description.

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR-102) filing and are already included in your notebook language.

Page 4

Under **Firearm Restriction Areas**, after the first sentence, add the following sentence: "Exceptions to firearm restrictions may be made through rule by the Fish and Wildlife Commission". This change provides the flexibility to the Fish and Wildlife Commission to deal with wildlife damage on a case by case basis.

SUMMARY OF WRITTEN PUBLIC INPUT

WAC 232-28-333 Game management units (GMUs) boundary descriptions – Region three

COMMENTS	AGENCY RESPONSE
Please leave the borders to Grayback unchanged.	This is a necessary change both from a deer and elk and elk management standpoint as well as maintaining boundaries that make sense and are more discernable.
You are recommending a boundary change between Unit 578 and 388, moving a large portion of 388 to 578. I have no concerns about the boundary change except that it will eliminate late archery season in the new areas of unit 578 and give it exclusively to muzzleloaders for elk. If I read the recommendations correctly, there is no late deer season in unit 578. Although I am not opposed to muzzleloaders hunting in the unit, I don't agree with preventing archers from hunting it also, especially for deer. Why can't archers and muzzleloaders hunt together? Neither one is required to wear hunter orange, you cannot tell the difference between either of these hunters in the woods, so safety can't be the reason. By this change, you will have displaced many late archery hunters. Their next option would be to move over to 388, where you already say it is a distressed herd. Much of 388 is also private land and many archers will be targeting the same crowded public areas, straining relations with adjacent private landowners. Moving the boundary makes sense as there will be a natural boundary that is easy to identify. Please allow the archery hunters to have a late, 3-point minimum deer season while the muzzleloaders are having their elk season.	The changes in the boundaries and the changes in the season structures are all designed to improve the deer herd management and ultimately improve the hunting experience. There are also good late archery deer season opportunities in the adjacent units of 572 and 560. For more information on the rationale for the recommendations, please review the issue statements that are provided on our web site regarding this issue.

COMMENTS	AGENCY RESPONSE
The following agency response pertains to all comments in this section	
I am opposed to changing the boundary for 578 (West Klickitat). I hunt muzzleloader and we are limited on deer areas. One of the main areas we hunt is the Buck Creek area. Since Wind River is not open for deer during the late hunt our area will be reduced even more. The boundary is not that difficult to follow, so I see no reason to change it.	The current GMU 388 & GMU 578 boundary has a confusing boundary description. Part of GMU 578 lies east of a good-sized portion of GMU 388. This fragments a popular elk hunting area into "East" and "West". It also inappropriately groups western forested habitat with eastern agricultural and arid habitats. The current GMU 578 & GMU 574 boundary has a confusing boundary description. The boundary uses high elevation USFS roads that are difficult to travel and are impassible in winter. Both sides have essentially identical hunting opportunities and management issues. The current GMU 574 & GMU 568 boundary has a confusing boundary description. It uses de-commissioned USFS roads (hard to find), the USFS boundary (nothing physically present), and requires cross-country navigation to find the boundary. They both have very similar hunting regulations for deer and elk As a result, the Department feels the proposed changes are vitally important and will make deer and elk management more effective, and ultimately serve the hunting public in a better fashion.
I support and think it has been long overdue for the boundary changes to management units 568, 572, 574, and 578.	
Here are my comments on the proposed hunting regulation changes: I fully and support the Klickitat River as the boundary between Units 578 and 388. At this time I support the 3 point minimum for buck deer in unit 578. I support making the late muzzleloading for buck deer in Unit 578 permit only.	
We support making the Klickitat River the boundary between West Klickitat (578) and Grayback (388).	
I just wanted to let you know how much I disagree with your new proposals on changes in the hunting unit 578(west Klickitat) You say that you give us other units to hunt but nobody knows these units, or they are mostly private land.	
The boundary changes between West Klickitat (578) and Grayback is a good idea. Making the Klickitat River the boundary between the two units will be easier to understand than a series of road systems.	

COMMENTS	AGENCY RESPONSE
388 which used to be 588 has been an archery unit for late season hunting for many years. I am an archer and only hunt deer in the late season because I hunt elk in the early season. The portion of 388 that you propose to cut away and add to 578 is where my family has hunt for many years. A few years back I purchased property in that area so I could have a place to camp and hunt with my grand kids ages 12 and 15 along with my nephews and friends. This area of unit 388 is the most conducive to archery hunting because the rest of unit 388 is mostly open terrain with the exception of the area just due North of the proposed change. One of the best parts of having this portion of 388 available to late archery hunting, is it usually includes the Thanksgiving holiday which gives the youths time off from school to hunt or participate in the hunt where the early season is taken up with school activities. Please do not take this away from us. A way that this could be accomplished would be to take the portion of 388 from Fisher Hill Road to the Klickitat River and make it the old 588 unit and manage it as a Western Elk and Blacktail unit. This would satisfy the most hunters in that the rifle folks would get back what they had lost when the unit changed to 388 and the archers would not lose their late season even though permitting for does could be necessary.

FINAL RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR-102) filing and are already included in your notebook language. These adjustments reflect any floor changes and additional supplemental recommended adjustments as a result of public testimony received at the March 6-7, 2009 Fish and Wildlife Commission meeting in Ellensburg.

Page 92

Under Deer Areas add the following language to Deer Area 5064 after "Island" add "and Howard Island." This change corrects an omission to the original boundary description and will help direct hunters to the entire area intended for the hunt.

COMMENTS	AGENCY RESPONSE
Opposed to the GMU 388/578 shift. Leave the Klickitat River as the boundary.	The Klickitat River is currently not the boundary. We are proposing that the River be the boundary. Thank you for your support.
Don't change GMU 388. It takes the late season away. Keep it the late archery hunt.	There would still be an early archery season. There are also late archery opportunities in nearby GMUs. The Regional biologists feel very strongly that the late season vulnerability of deer needs to be addressed to improve the post-hunt characteristics of the deer population. The current season structure that includes a late general season for archers is not sustainable.
Make the area between Fisher Hill Road and the Klickitat River a separate GMU, suggest GMU 588. Make it a separate hunt.	Simply isolating this small area as a stand-alone GMU would not guarantee the hunting season structure that you are promoting. As described above, a change in this area is necessary from a deer management perspective.
Modify the western boundary of GMU 388 from what was proposed to the Glenwood Highway where it runs through the Klickitat Wildlife Area, this would add the Soda Springs portion of the WA into GMU 578.	The Klickitat River boundary is clearly definable; it allows us to manage the more open habitats as a group; and retains the current deer management emphasis for most of the Wildlife Area.

ATTACHMENT A

WAC 232-12-047 Unlawful methods for hunting

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
Amendments to this rule help clarify the title of the WAC which deals with more than firearms. The proposal clarifies language related to using handguns for hunting and also removes a conflict with the muzzleloading equipment WAC that proposes to allow muzzleloading handguns for hunting. The proposal would also allow crossbows to be used in firearm restriction areas as designated by the Fish and Wildlife Commission. Currently only hunters with disabilities that meet certain criteria are allowed to use crossbows.

Reasons supporting proposal:
To provide more flexibility in designing hunting seasons that address urban and suburban big game issues by allowing crossbows in some situations. The proposal also removes a conflict with a proposed change in the muzzleloading equipment WAC.

WAC 232-12-051 Muzzleloading firearms

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the proposal is to clarify language related to lawful ignition systems for muzzleloading firearms. The proposal also no longer restricts projectiles to lead only. The proposal would allow muzzleloading handguns to be used for hunting big game and clarifies muzzleloading handgun use for small game. Also the proposal would allow modern handguns to be carried for personal protection during a muzzleloader season.

Reasons supporting proposal:
To help clarify what types of muzzleloader equipment is lawful for hunting; allow hunters more flexibility in the types of projectiles they are allowed to use; removes an unnecessary restriction related to using muzzleloading handguns for big game and clarifies other allowed uses for muzzleloading handguns; and allows muzzleloader hunters to carry handguns for personal safety as long as they are not in conflict with existing big game hunting season restrictions.

WAC 232-12-054 Archery requirements – Archery special use permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the proposal is to allow modern handguns to be carried for personal protection during an archery season and allow the use of crossbows in firearm restriction areas as designated by the Fish and Wildlife Commission.

Reasons supporting proposal:
The proposal would provide more flexibility in designing hunting seasons that address urban and suburban big game issues by allowing crossbows in some situations. The proposal would also allow archery hunters to carry handguns for personal safety as long as they are not in conflict with existing big game hunting season restrictions.

WAC 232-12-055 Hunting – Hunter orange clothing requirements

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposed amendments help clarify which hunters are required to wear hunter orange clothing. The clarification is for hunting during modern firearm seasons and for modern firearm deer and elk permit holders.

Reasons supporting proposal:
In the past, it has not been very clear whether archery and muzzleloader deer and elk hunters were required to wear hunter orange clothing outside of general seasons for modern firearm hunters.

WAC 232-12-062 Party hunting

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
To develop a definition of party hunting and clarify that it is illegal to hunt for another person's big game animal or turkey.

Reasons supporting proposal:
To clarify that party hunting for big game and turkeys is illegal.

WAC 232-12-068 Nontoxic shot requirements

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The rule will provide additional nontoxic shot selections for waterfowl, coot, and snipe hunters.

Reasons supporting proposal:
To improve recreational opportunity and protect waterfowl resources.

WAC 232-12-227 Hunter education training program requirements

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose behind the proposal is to minimize confusion and avoid possible mistakes by license vendors.

Currently subsection (4) authorizes an individual who has a Washington hunting license from a preceding year to show that license and purchase a subsequent hunting license even if the initial license was not issued in compliance with the hunter education training requirement. The proposal will allow individuals to purchase a Washington hunting license only if they have a hunter education certificate *or* are identified as previous Washington hunters in the current license data system.

Reasons supporting proposal:
The proposal ensures that only hunter education graduates or individuals currently identified as hunting-license buyers within the WDFW license data system are eligible to purchase.

WAC 232-12-828 Hunting of game birds and animals by persons with a disability

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposed amendment to this rule would authorize the Director to administer and issue special use permits to hunters with disabilities.

Reasons supporting proposal:
Accommodations that allow persons with disabilities to participate in Department programs are required by the Americans with Disabilities Act. Special use permits allow the Director to evaluate applications and provide accommodations where appropriate.

WAC 232-12-840 Hunting and fishing opportunities for terminally ill persons

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
This proposal is to implement recently passed legislation authorizing the Commission to establish rules for providing special hunting and fishing opportunities for terminally ill persons. In the proposal, the Director is authorized to provide opportunities in a variety of ways at no cost.

Reasons supporting proposal:
To implement the legislation, which provides special hunting and fishing opportunities for terminally ill persons.

WAC 232-28-248 Special closures and firearm restriction areas

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposed rule amendments add more weapon options in firearm restriction areas. The effect will maintain some limited hunting opportunity in these areas and also provide an effective level of harvest to help control deer and elk populations causing damage and nuisance problems especially in more developed areas.

Reasons supporting proposal:
The proposed language retains some limited level of hunting that is compatible with urban expansion. Also helps deal with deer and elk damage and nuisance problems.

WAC 232-28-266 Damage prevention permit hunts

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The amendment to the rule adds 200 turkey permits in northeastern Washington. These permits will provide landowners and WDFW enforcement with additional tools to address property damage issues.

Reasons supporting proposal:
An increasing number of landowners are requesting the use of these permits to address damage. They have proven to be very effective in dealing with damage problems and reducing landowner complaints with deer. WDFW enforcement officers have requested they be available for turkeys as well.

WAC 232-28-272 2009-2010, 2010-2011, and 2011-2012 Black bear and cougar hunting seasons and regulations

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The rule establishes hunting seasons for black bear and cougar from 2009 to 2012. The purpose of the recommended changes is to maximize recreational hunting opportunities for bear and cougar while maintaining sustainable populations.

The Department is recommending status quo bear seasons, with two exceptions: (1) For management units that open Aug 1, the Aug 1-31 period is limited to hunting on private lands only; (2) For management units that open in early September, change the opener from the day after Labor Day to September 1.

The Department's cougar season recommendations are: Statewide Sept. 1-25 archery only and Sept. 26-Oct. 16 muzzleloader only seasons; Oct. 17-Mar. 31 general season (any weapon) for zones where trends in female harvest are within our guideline; Oct. 17-Dec. 31 general season for zones where female harvest slightly exceeds our guideline; Oct. 31-Nov. 30 season for zones where female harvested is limited by a quota system and the management need is to adequately evaluate the pilot hunt with the aid of dogs; Change the statewide bag limit from 2 cougars to 1 cougar.

Reasons supporting proposal:
Maximize recreational opportunities for bear and cougar hunting, while maintaining sustainable populations.

The justification for the August black bear season on private lands only is to reduce conflict with other recreational users on public lands during the summer while still allowing bears to be harvest for damage reasons (e.g., orchard damage). The justification for the September 1 start date is consistency with the opening day of deer archery seasons.

The justification for the cougar season changes is consistency with concurrent deer/elk seasons and to limit female harvest in those areas where harvest levels exceed our guidelines.

WAC 232-28-273 2009-2011 Moose, bighorn sheep, and mountain goat seasons and permit quotas

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposed rule amendments include a status quo moose permit level of 130; creating a Master Hunter damage hunt in the Mount Spokane unit; adding ewe-only hunts in three herds; increasing bighorn sheep permit levels from 36 to 46; and reducing mountain goat permit levels consistent with the findings of our recent research.

Reasons supporting proposal:
Recommended adjustments in permit quotas are based on meeting population objectives for each species as indicated in the Game Management Plan.

WAC 232-28-282 Big game and wild turkey auction, raffle, and special incentive permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposed rule amendments include removing dated language; clarifying areas open for specific deer auction and raffle seasons; and changing the areas open to the Rocky Mountain bighorn raffle permit hunt to reflect the status of mature rams in various populations.

Reasons supporting proposal:
Provide a variety of different hunting opportunities and maximize revenue for auction/raffle program, all within biological sustainable limits.

WAC 232-28-286 2010, 2011, and 2012 Spring black bear seasons and regulations

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposed rule amendments add a spring bear hunt in a portion of GMU 501 with 50 permits and close the spring bear damage hunt in Capitol Forest.

Reasons supporting proposal:
Spring black bear seasons are used to minimize damage to trees by reducing bear populations to a lower but sustainable level, reduce nuisance activity in northeastern Washington, and better distribute the harvest geographically in southeastern Washington.

WAC 232-28-287 2009-2010, 2010-2011, 2011-2012 Cougar permit seasons and regulations

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
Establish fall permit hunts for 9 cougar zones around the state. Cougar permit hunts are designed to provide late season hunting opportunity for hunters without the use of dogs (i.e., spot and stalking in snow and/or calling). The anticipated effect is additional varieties of hunting opportunity with sustainable cougar populations.

Reasons supporting proposal:
Provide late season hunting opportunity for hunters without the use of dogs (i.e., spot and stalking in snow and/or calling).

WAC 232-28-291 Special hunting season permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The amendments proposed are largely housekeeping in nature. Changes are recommended for multi-season permit application and group sizes. Changes are also recommended for deer and elk permit application group sizes and the late fall turkey permit application rules are eliminated. Fall turkey permit applications are consolidated into one set of rules.

Reasons supporting proposal:
The proposal would allow multi-season applicants to submit group applications; clean up turkey permit application language; and limit the number of deer and elk group applicants to better distribute permits.

WAC 232-28-294 Multiple season big game permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
This proposal would shorten the amount of time successful applicants for a multi-season permit would have to purchase their permit to allow for the sale of all permits prior to the first general seasons starting in September. It would also provide 50 multi-season deer and 25 multi-season elk permits to qualifying hunter education instructors.

Reasons supporting proposal:
Shortening the purchase time for successful applicants would make sure that more hunters would be able to purchase permits. Providing hunter education instructors with multiple season permits would be an incentive to recruit and retain instructors.

WAC 232-28-295 Landowner hunting permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The proposal identifies permit levels and season dates for Landowner Hunting Permit (LHP) program participants for the 2009 hunting seasons. Amendments to this rule include removal of the 4-O Cattle Company who requested not to participate and addition of the Pine Mountain LHP in Yakima County. The permits will result in general public hunter access on private property and will help mitigate deer and elk foraging on private agricultural lands.

Reasons supporting proposal:
Increase public hunting access to private lands and help landowners address game damage issues.

WAC 232-28-333 Game management units (GMUs) boundary descriptions – Region three

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
GMU boundary rules define legal hunting areas. The GMUs need readily discernable boundaries to direct hunters to appropriate hunting areas. Season dates, bag limits, antler restrictions, and other hunting season regulations are typically specified at the GMU scale.

Reasons supporting proposal:
Clarifies boundaries and facilitates hunting seasons for big game.

WAC 232-28-335 Game management units (GMUs) boundary descriptions – Region five

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
GMU boundary rules define legal hunting areas. The GMUs need readily discernable boundaries to direct hunters to appropriate hunting areas. Season dates, bag limits, antler restrictions, and other hunting season regulations are typically specified at the GMU scale.

Reasons supporting proposal:
Clarifies boundaries and facilitates hunting seasons for big game.

WAC 232-28-336 Game management units (GMUs) boundary descriptions – Region six

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
GMU boundary rules define legal hunting areas. The GMUs need readily discernable boundaries to direct hunters to appropriate hunting areas. Season dates, bag limits, antler restrictions, and other hunting season regulations are typically specified at the GMU scale.

Reasons supporting proposal:
Clarifies boundaries and facilitates hunting seasons for big game.

WAC 232-28-337 Deer and elk area descriptions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
Boundary adjustments are being proposed to better address current deer and elk damage issues.

Reasons supporting proposal:
The proposed rule amendment provides the means to reduce wildlife damage issues and direct deer and elk damage hunts by adjusting elk area boundaries.

WAC 232-28-342 2009-10, 2010-11, 2011-12 Small game seasons

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the new rule is to establish hunting season timing, hunting requirements, and applicable permit levels for the following species: bobcat, raccoon, fox, coyote, forest grouse, pheasant, chukar, gray partridge, mountain quail, California quail, bobwhite, wild turkey, Canada goose, band-tailed pigeon, mourning dove, cottontail rabbits, snowshoe hare, and crow. It also describes falconry and dog training seasons.

Amendments to this rule include: 1) Liberalize fall turkey hunting by establishing more general season opportunity, 2) Eliminate the use of dogs to hunt coyotes, 3) Eliminate the two-day September Canada Goose Season, shifting those dates to the regular goose season, 4) Increase the daily bag limit for forest grouse to four per day.

Reasons supporting proposal:
Proposals are consistent with conservation of wildlife populations and public sentiment.

WAC 232-28-351 2009-2011 Deer general seasons and definitions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the proposal is to retain general season deer hunting opportunity, balance the hunting opportunity between the three primary user groups, increase opportunity when deer populations allow, and reduce opportunity when declining deer numbers warrant such a change.

Reasons supporting proposal:
Provides recreational deer hunting opportunity and protects deer from overharvest. The proposal maintains sustainable general deer hunting season opportunities for 2009-2011. Helps reduce agricultural damage and provides for population control of deer where needed.

WAC 232-28-352 2009-2011 Elk general seasons and definitions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the proposal is to retain general season elk hunting opportunity, balance the hunting opportunity between the three primary user groups, increase opportunity when elk populations allow, and reduce opportunity when declining elk numbers warrant such a change.

Reasons supporting proposal:
Provides recreational elk hunting opportunity and protects elk from overharvest. The proposal maintains sustainable general elk hunting season opportunities for 2009-2011. Helps reduce agricultural damage and provides for elk population control where needed.

WAC 232-28-353 2009 Deer special permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the proposal is to retain special permit season deer hunting opportunity, balance the hunting opportunity between the three primary user groups, increase opportunity when deer populations allow, and reduce opportunity when declining deer numbers warrant such a change.

Reasons supporting proposal:
Provides recreational deer hunting opportunity and protects deer from overharvest. The proposal maintains sustainable special permit deer hunting season opportunities for 2009. Helps reduce agricultural damage and provides for population control of deer where needed.

WAC 232-28-354 2009 Elk special permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The purpose of the proposal is to retain special permit season elk hunting opportunity, balance the hunting opportunity between the three primary user groups, increase opportunity when elk populations allow, and reduce opportunity when declining elk numbers warrant such a change.

Reasons supporting proposal:
Provides recreational elk hunting opportunity and protects elk from overharvest. The proposal maintains sustainable special permit elk hunting season opportunities for 2009. Helps reduce agricultural damage and provides for elk population control where needed.

WAC 232-28-516 Trapping seasons and regulations

Purpose of the proposal and its anticipated effects, including any changes in existing rules:
The new WAC removes all superfluous regulations (e.g., area restrictions) that are no longer warranted given current trapping practices and low harvest levels. It recommends a standard trapping season for all furbearers from November 1 to March 31 and an increased annual bag limit for river otter from 6 to 12. WAC 232-28-516 replaces WAC 232-28-515.

Reasons supporting proposal:
To maximize trapping opportunity consistent with population objectives.
