

WDFW intends to continue managing these wetland basins for hunting opportunity and spring and winter waterfowl habitat.

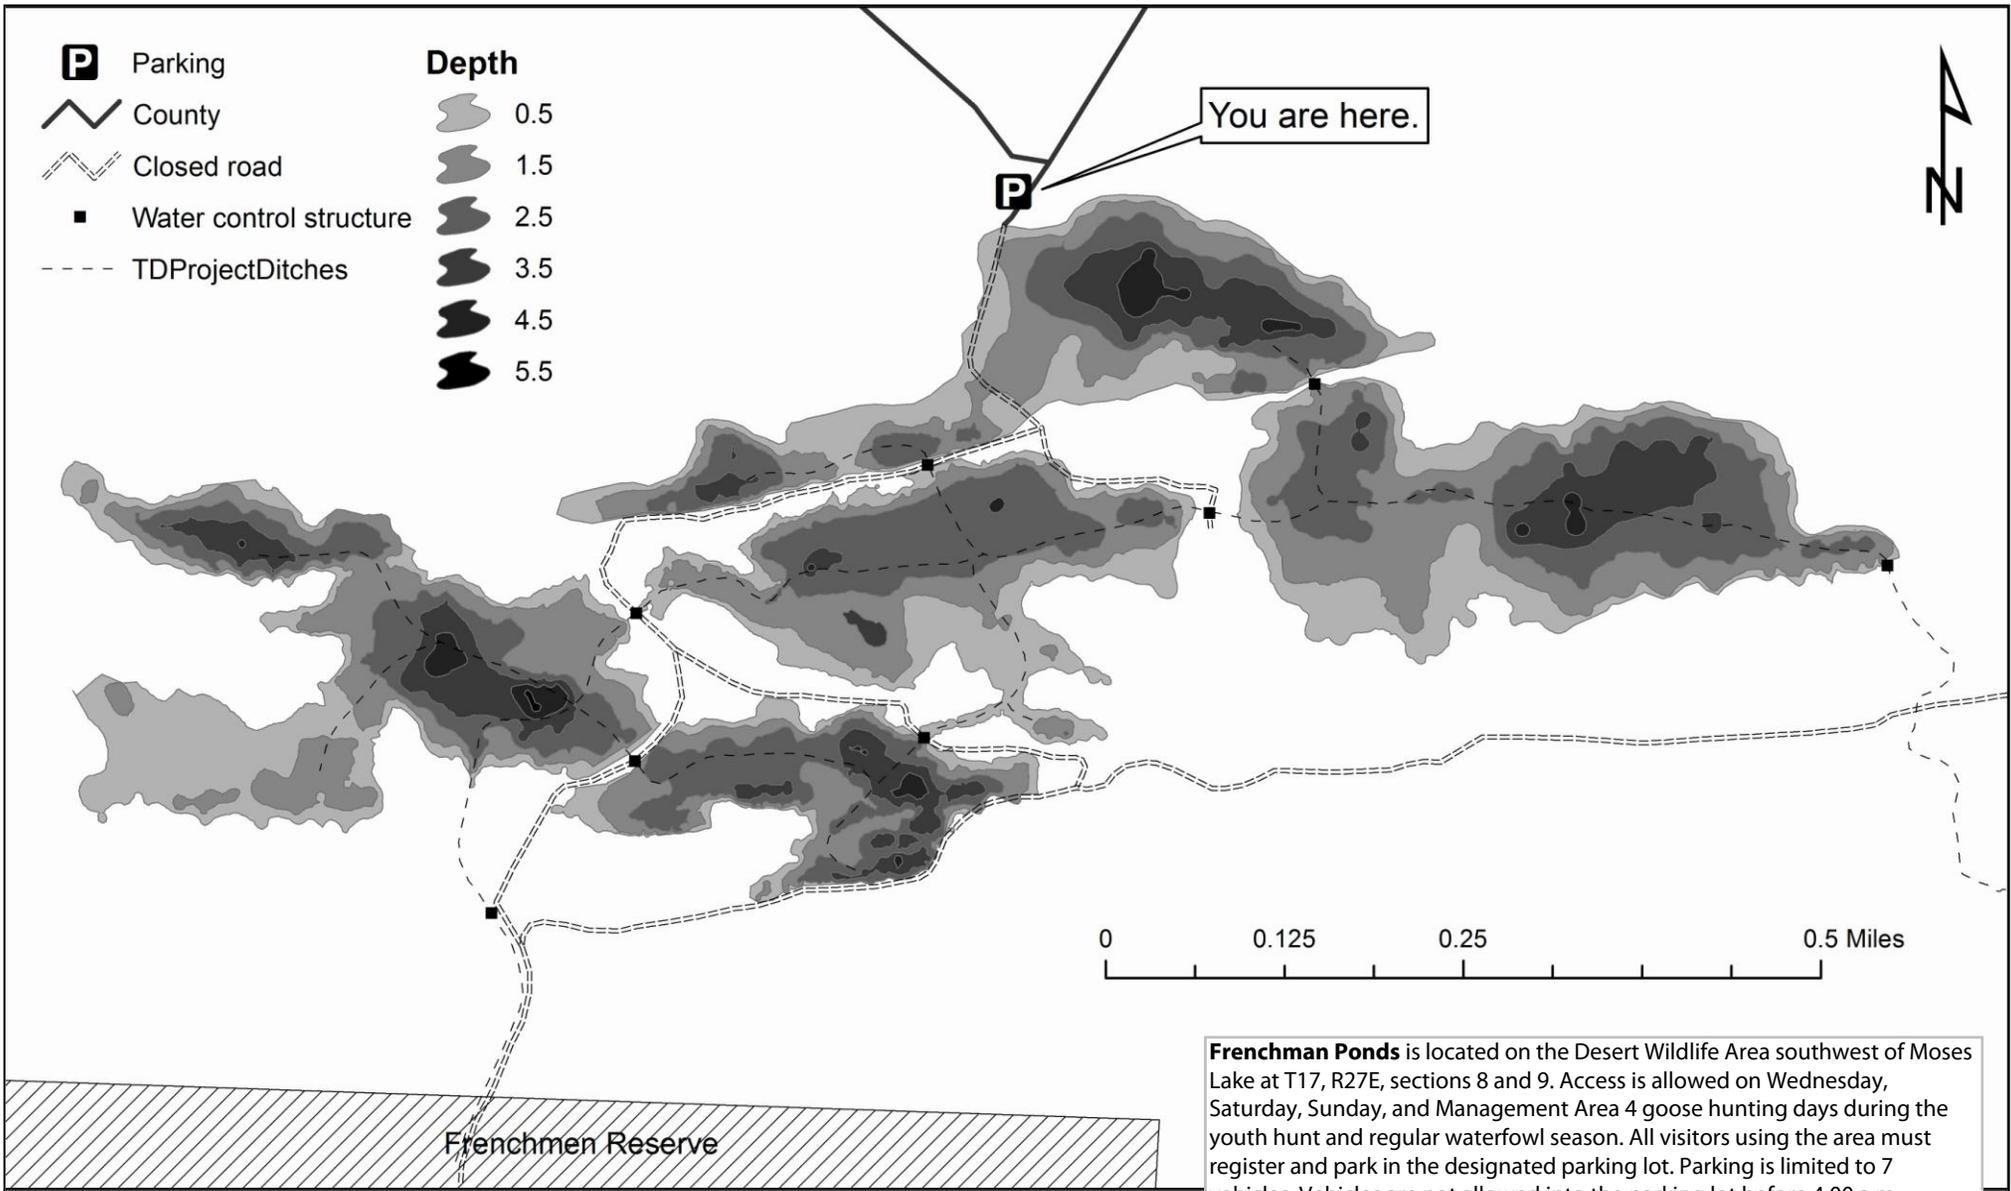

This regulated access area includes all the ponds shown on the map on the reverse side of this page. Be aware that the ditches shown on the map may not be visible (i.e. flooded) and may be too deep to wade. Use caution when crossing ponds or ditches.

The register to hunt system is in place to reduce crowding and to allow WDFW to track hunter success, which is an indicator of WDFW's ability to create a quality experience. Please help us provide that experience by filling out the register to hunt forms.

**Frenchmen Ponds Regulated Access Area** was completed in 2007. This project is the result of a financial, logistical, and/or operational partnership from the following organizations:

- *BPA (Bonneville Power Administration)*
- *Bureau of Reclamation*
- *Ducks Unlimited*
- *NRCS (Natural Resources Conservation Service; Wetland Reserve Program)*
- *Washington Department of Fish and Wildlife (WDFW); Duck Stamp and Print Program*
- *Washington Waterfowl Association*

# FRENCHMEN PONDS REGULATED ACCESS

## AREA MAP
