

Hunter Farms Store Fields

This site area also serves as pheasant release site through November 30. The two parking spots for waterfowl hunting are at a wide pull-off along the highway north of the store and in the parking lot, west of the store. **Only two groups may hunt the fields at the same time. One vehicle parked at each sign holds the entire site for waterfowl hunting. The opportunity to hunt is on a first come/first served basis.** Waterfowl use at this site is dependent on rainfall and may not have ducks or geese until late November or even December. Hunters must provide their own blinds. Dig no pits and do not encroach on the area being hunted by the other group of waterfowlers.
