- Wildlife viewing
- Hunting
- Fishing
- Hiking

Lower Nooksack River Project

Agency	Department of Fish and Wildlife
Estimated Acres	10
Existing Uses	Private ownership
Threats	Development
Intended Uses	Salmon restoration project and wildlife use
Project Description	This acquisition is part of a 1,200 acre Lower Nooksack River Conservation and Restoration project. The primary goal of the project is to maximize restoration of physical and biological processes that support properly functioning habitat. This acquisition falls just outside the dikes and is a significant component of the larger conservation and restoration project.
Partners/Supporters	Whatcom County, Nooksack Salmon Enhancement Assoc., Lummi Tribe, Nooksack Tribe, Whatcom Land Trust, Army Corps of Engineers, PSNRP project partners
