**ADDENDUM TO DETERMINATION OF NONSIGNIFICANCE
DATED: JANUARY 21, 1997**

Name of DNS: FISHWAY GENERAL MAINTENANCE ACTIVITIES

Description of DNS: General maintenance activities for 71 Department of Fish and Wildlife fishway sites located statewide. Includes the following activities needed to safely pass fish: 1) removal of accumulated organic and inorganic materials, 2) replacement of stop logs and guides associated with weir/pool, vertical slot or pool chute type fishways, 3) repair or replacement of concrete weirs/walls associated with concrete fishways, 4) repair or replacement of metal trash racks, guides, screens, ladders and grates associated with weir/pool or vertical slot fishways, and 5) repair or replacement of log controls, ballast, and associated rip-rap associated with log control type fishways.

Proponent: Washington Department of Fish and Wildlife, Habitat Program, SSHEAR Division, 600 Capitol Way North, Olympia, Washington 98501-1091. Contact person: Tom Burns

Location of Proposal, including street, if any: Near Junction of Washougal River Road and Salmon Falls Road, North of Cape Horn, Washington, Skamania County; Northwest 1/4 of Section 33, Township 02 North, Range 05 East WM

Lead Agency: Washington Department of Fish and Wildlife

The lead agency is providing updated information on this project which may be of interest to other agencies or the public. The updated information provided below does not substantially change the analysis of significant impacts in the existing environmental checklist.

The original environmental checklist dated January 21, 1997, and the Addendum, dated January 10, 2001, should be modified to reflect the following corrections:

1. The temporary fill of 160 cubic yards, (changed from 50 cubic yards) for the use of a temporary pit run ramp over a fishway wall to afford access for a crane to complete work.

Based on the original environmental checklist and the updated information provided in this addendum, the lead agency has determined that a new threshold determination is not

warranted. There is no comment period associated with this change to the SEPA addendum.
