**DETERMINATION OF NONSIGNIFICANCE**

**Name of Proposal:** SILVER LAKE BOAT LAUNCH RENOVATION

**Description of Proposal:** The proposed project consists of improvements to an existing boat launch facility. These improvements include:

**Phase 1**

1. Replacement of two dilapidated boat ramps at the WDFW public access site. The two new ramps will be longer than the existing ramps and measure 12 feet wide and 92 feet long for each ramp. The new ramps will have Armortech concrete blocking installed at the base and sides of each ramp to protect ramps from premature degradation.
2. Installation of an 8-foot by 40-foot floating dock connected to shore by a 4-foot by 60-foot gangway. The new float and gangway will be located between the new ramps. A concrete abutment will be added for the gangway.
3. Repair and replacement of approximately 160 feet of 6-foot high chain link fence. New slats will be installed along the entire length of the fence.
4. Replace three sections of existing chain link fence.
5. The addition of an asphalt paved ADA parking area for existing vault toilets and an ADA trailer parking area. An asphalt paved ADA walkway from the parking areas to the boat ramp will also be added.
6. Installation of kiosk.
7. Placement of barrier rock at the top of the ramps to prevent vehicles from driving onto beach areas.

**Phase 2**

8. Addition of an ADA accessible concrete viewing platform. This 12-foot by 15-foot platform will be connected by a new 5-foot wide pathway to the parking areas and is entirely above ordinary high water.
9. Addition of a fishing float located on the north side of the boat ramps. A 60-foot gangway will connect this float to a concrete abutment.
10. Wheel stops will be removed.
