PART ELEVEN — FORMS

HABITAT PROGRAM

WAC 197-11-960 Environmental checklist.

ENVIRONMENTAL CHECKLIST

Purpose of Checklist:

The State Environmental Policy Act (SEPA), chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An environmental impact statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:

This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply". Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of checklist for nonproject proposals:

Complete this checklist for nonproject proposals, even though questions may be answered "does not apply." IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A. BACKGROUND

1. Name of proposed project, if applicable:

private gamebird shooting preserve

2. Name of applicant: Skagvale Holsteins

3. Address and phone number of applicant and contact person:

10117 Fruitdale Rd

Sedro-Woolley WA 98284

contact: Mark Tenneson

4. Date checklist prepared: 2-3-09

5. Agency requesting checklist: Department of Fish and Wildlife

6. Proposed timing or schedule (including phasing, if applicable):

The pheasant chicks arrive on March 19, 2009. Birds mature in about 4 months.

There will be no construction.

7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain.

no.

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.

none

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain.

not applicable

10. List any government approvals or permits that will be needed for your proposal, if known.

Game Farm/ shooting preserve license

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.)

We are becoming licensed as a private gamebird shooting preserve where pheasants are farmed and hunted.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

10117 Fruitdale Road. Sedro-Woolley, WA 98284

The preserve will be on 131 acres of privately owned land, with the following parcel numbers: P40004, P39805, P40428, P40351, P40350, P40432, P40433, P40419, P40427.

TO BE COMPLETED BY APPLICANT

EVALUATION FOR AGENCY USE ONLY

B. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site (circle one) Flat rolling, hilly, steep slopes, mountainous, other _____

b. What is the steepest slope on the site (approximate percent slope)? n/a

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.

Light and heavy loam, clay.
It is all farmland, and will be kept exactly as that. No new construction at all.

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.

none.

e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill.

n/a

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

n/a

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

no construction proposed (n/a)

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any:

n/a

2. Air

a. What types of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

n/a

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

n/a

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

n/a

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

3. Water

a. Surface:

1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Hanson Creek runs on the property.
It drains into the Skagit River.

2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

no

3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

none

4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

no

5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

Lower lands are in the floodplain.
However, there will be no impact as
we are not doing any construction.

6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

no

b. Ground:

1) Will ground water be withdrawn, or will water be discharged to ground water? Give general description, purpose, and approximate quantities if known.

no

2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals . . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.

n/a

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

c. Water Runoff (including storm water):

1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

n/a

2) Could waste materials enter ground or surface waters? If so, generally describe.

no

d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:

n/a

4. Plants

a. Check or circle types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered?

none

c. List threatened or endangered species known to be on or near the site.

none

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

n/a

5. Animals

a. Circle any birds and animals which have been observed on or near the site or are known to be on or near the site:

- birds: hawk, heron, eagle, songbirds, other:
- mammals: deer, bear, elk, beaver, other:
- fish: bass, salmon, trout, herring, shellfish, other:

b. List any threatened or endangered species known to be on or near the site.

none

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

c. Is the site part of a migration route? If so, explain.

no

d. Proposed measures to preserve or enhance wildlife, if any:

The land will be left "as is" and will be unchanged, staying as permanent pasture with some trees.

6. Energy and Natural Resources

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

n/a

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

n/a

c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

n/a

7. Environmental Health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.

n/a

1) Describe special emergency services that might be required.

n/a

2) Proposed measures to reduce or control environmental health hazards, if any:

n/a

b. Noise

1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

none

2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

n/a

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

3) Proposed measures to reduce or control noise impacts, if any:

n/a

8. Land and Shoreline Use

a. What is the current use of the site and adjacent properties?

farm/agricultural land

b. Has the site been used for agriculture? If so, describe.

yes. Dairy and beef. All fields are in permanent pasture.

c. Describe any structures on the site.

Only barns.

d. Will any structures be demolished? If so, what?

no

e. What is the current zoning classification of the site?

agricultural

f. What is the current comprehensive plan designation of the site?

n/a

g. If applicable, what is the current shoreline master program designation of the site?

n/a

h. Has any part of the site been classified as an "environmentally sensitive" area? If so, specify.

no

i. Approximately how many people would reside or work in the completed project?

0

j. Approximately how many people would the completed project displace?

n/a

k. Proposed measures to avoid or reduce displacement impacts, if any:

n/a

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:

There won't be any changes to the agricultural status of the land as there will not be any construction.

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.

n/a

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.

n/a

c. Proposed measures to reduce or control housing impacts, if any:

n/a

10. Aesthetics

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?

n/a

b. What views in the immediate vicinity would be altered or obstructed?

n/a

c. Proposed measures to reduce or control aesthetic impacts, if any:

n/a

11. Light and Glare

a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

n/a

b. Could light or glare from the finished project be a safety hazard or interfere with views?

n/a

c. What existing off-site sources of light or glare may affect your proposal?

n/a

d. Proposed measures to reduce or control light and glare impacts, if any:

n/a

12. Recreation

a. What designated and informal recreational opportunities are in the immediate vicinity?

n/a

b. Would the proposed project displace any existing recreational uses? If so, describe.

n/a

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

n/a

13. Historic and Cultural Preservation

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

no

b. Generally describe any landmarks or evidence of historic, archaeological, scientific, or cultural importance known to be on or next to the site.

n/a

c. Proposed measures to reduce or control impacts, if any:

n/a

14. Transportation

a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

The farm is frontaged by Fruitdale Road.
There will be no changes.

b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

No. This is private property and will remain so. (The nearest transit stop is approx. 3/4 mile away.)

c. How many parking spaces would the completed project have? How many would the project eliminate?

n/a

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).

no

e. Will the project use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe.

no

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur.

n/a

TO BE COMPLETED BY APPLICANT

EVALUATION FOR
AGENCY USE ONLY

g. Proposed measures to reduce or control transportation impacts, if any:

n/a

15. Public Services

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

no

b. Proposed measures to reduce or control direct impacts on public services, if any.

n/a

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other.

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.

n/a

C. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Washington Department of Fish and Wildlife Specialized License Information

Trapping License

A state trapping license allows an individual to trap fur-bearing animals throughout the state. Traps may not be placed on private property without the permission of the landowner. Trapping licenses expire on April 1st following the year of issue. Licensees must submit a "trapper's certificate" or pass an examination to those trappers who submit their previous year's trapper report with their license.

Person's who are licensed to trap fur-bearing animals may purchase the genus *Perdix* water fowl of the genus *Perdix*.

A taxidermy license is required and records of wildlife received are required and records of wildlife belonging to the licensee are required.

A fur dealer license is required and records of wildlife received are required and records of wildlife belonging to the licensee are required.

In addition to a trapping license, a raptor license is required for those who wish to possess or hunt with a raptor, including seasons established by the department and which expire the same date as the federal falconry permit.

LICENSED GAME FARM INFORMATION

1. A game farm license is required to sell or transfer the following wildlife:
Pheasant, *Phasianus*
Gray (Hungarian) Partridge, *Perdix*
Chukar, *Alectoris*
Quail, *Lophorhynchus*, *Colinus*, *Callipepla*, and *Oreorhynchus*
Waterfowl, *Anatidae*
(Commercial mink and fox are regulated by the Washington Department of Agriculture.)
2. No other wildlife as defined by rule of the Fish and Wildlife Commission may be sold, bartered, traded, or propagated under the provision of a game farm license.
3. The applicant is the owner or tenant of or has a possessory interest in the lands, waters, and riparian rights shown in the application.
4. Rearing and holding facilities must be capable of preventing escape of game farm wildlife.
5. Operating conditions must be clean and humane.
6. Game Farm operations may not create hazards to the state's wildlife.
7. It is unlawful to release wildlife in Washington without a permit from the Department of Fish and Wildlife, except under specific conditions.
8. Sick or diseased birds must be placed under the care of a veterinarian and reported to the Department of Fish and Wildlife.
9. Receipts must be given to all those who purchase or receive birds. It is unlawful to possess wildlife without proof of legal acquisition. Receipts are provided by the Department of Fish and Wildlife to licensed game farms.
10. Birds to be used for field trials, dog training, or shooting preserves must be marked or banded as provided in WAC 232-12-044. Bands must be purchased from the Department of Fish and Wildlife's Olympia office.
11. It is illegal to remove wildlife from the wild without a permit. Permits are not issued for game farming purposes.
12. Wildlife being brought into Washington must be accompanied by proof of lawful importation and a veterinarian's certification that they are free from disease. Written certification must remain with imported wildlife.
13. Each licensed game farm must receive an annual inspection during June, July, or August from a veterinarian or agent authorized by the Department of Fish and Wildlife. The inspection form will be supplied by the Department of Fish and Wildlife and must be attached to the annual report.
14. An annual report must be submitted on a form supplied by the Department of Fish and Wildlife to the Olympia office by January 15th of each year.
15. Facilities may be inspected by a representative of the Department of Fish and Wildlife at reasonable times and manner.

2/23/96 NOTE: This publication is informational only. For complete regulations, please contact the Washington Department of Fish and Wildlife.

LICENSED GAME FARM FACILITY INSPECTION FORM

License Holder's Name: Mark Tenneson / Carolyn Tenneson Wahl

Business Name: Skagvle Holsteins

Address: 10117 Fruitdale Road

City: Sedro-Woolley Washington Zip Code: 98284

Permanent Number: applied for License Number: applied for

VETERINARIAN

Veterinarian's Name Dr. Greg Ingman

Business Name: Chuckanut Valley Vet Clinic

Address: 896 N. Burlington Blvd.

City: Burlington Washington Zip Code: 98283

Veterinarian's License Number: VT00003312 Inspection Date: 3/11/09

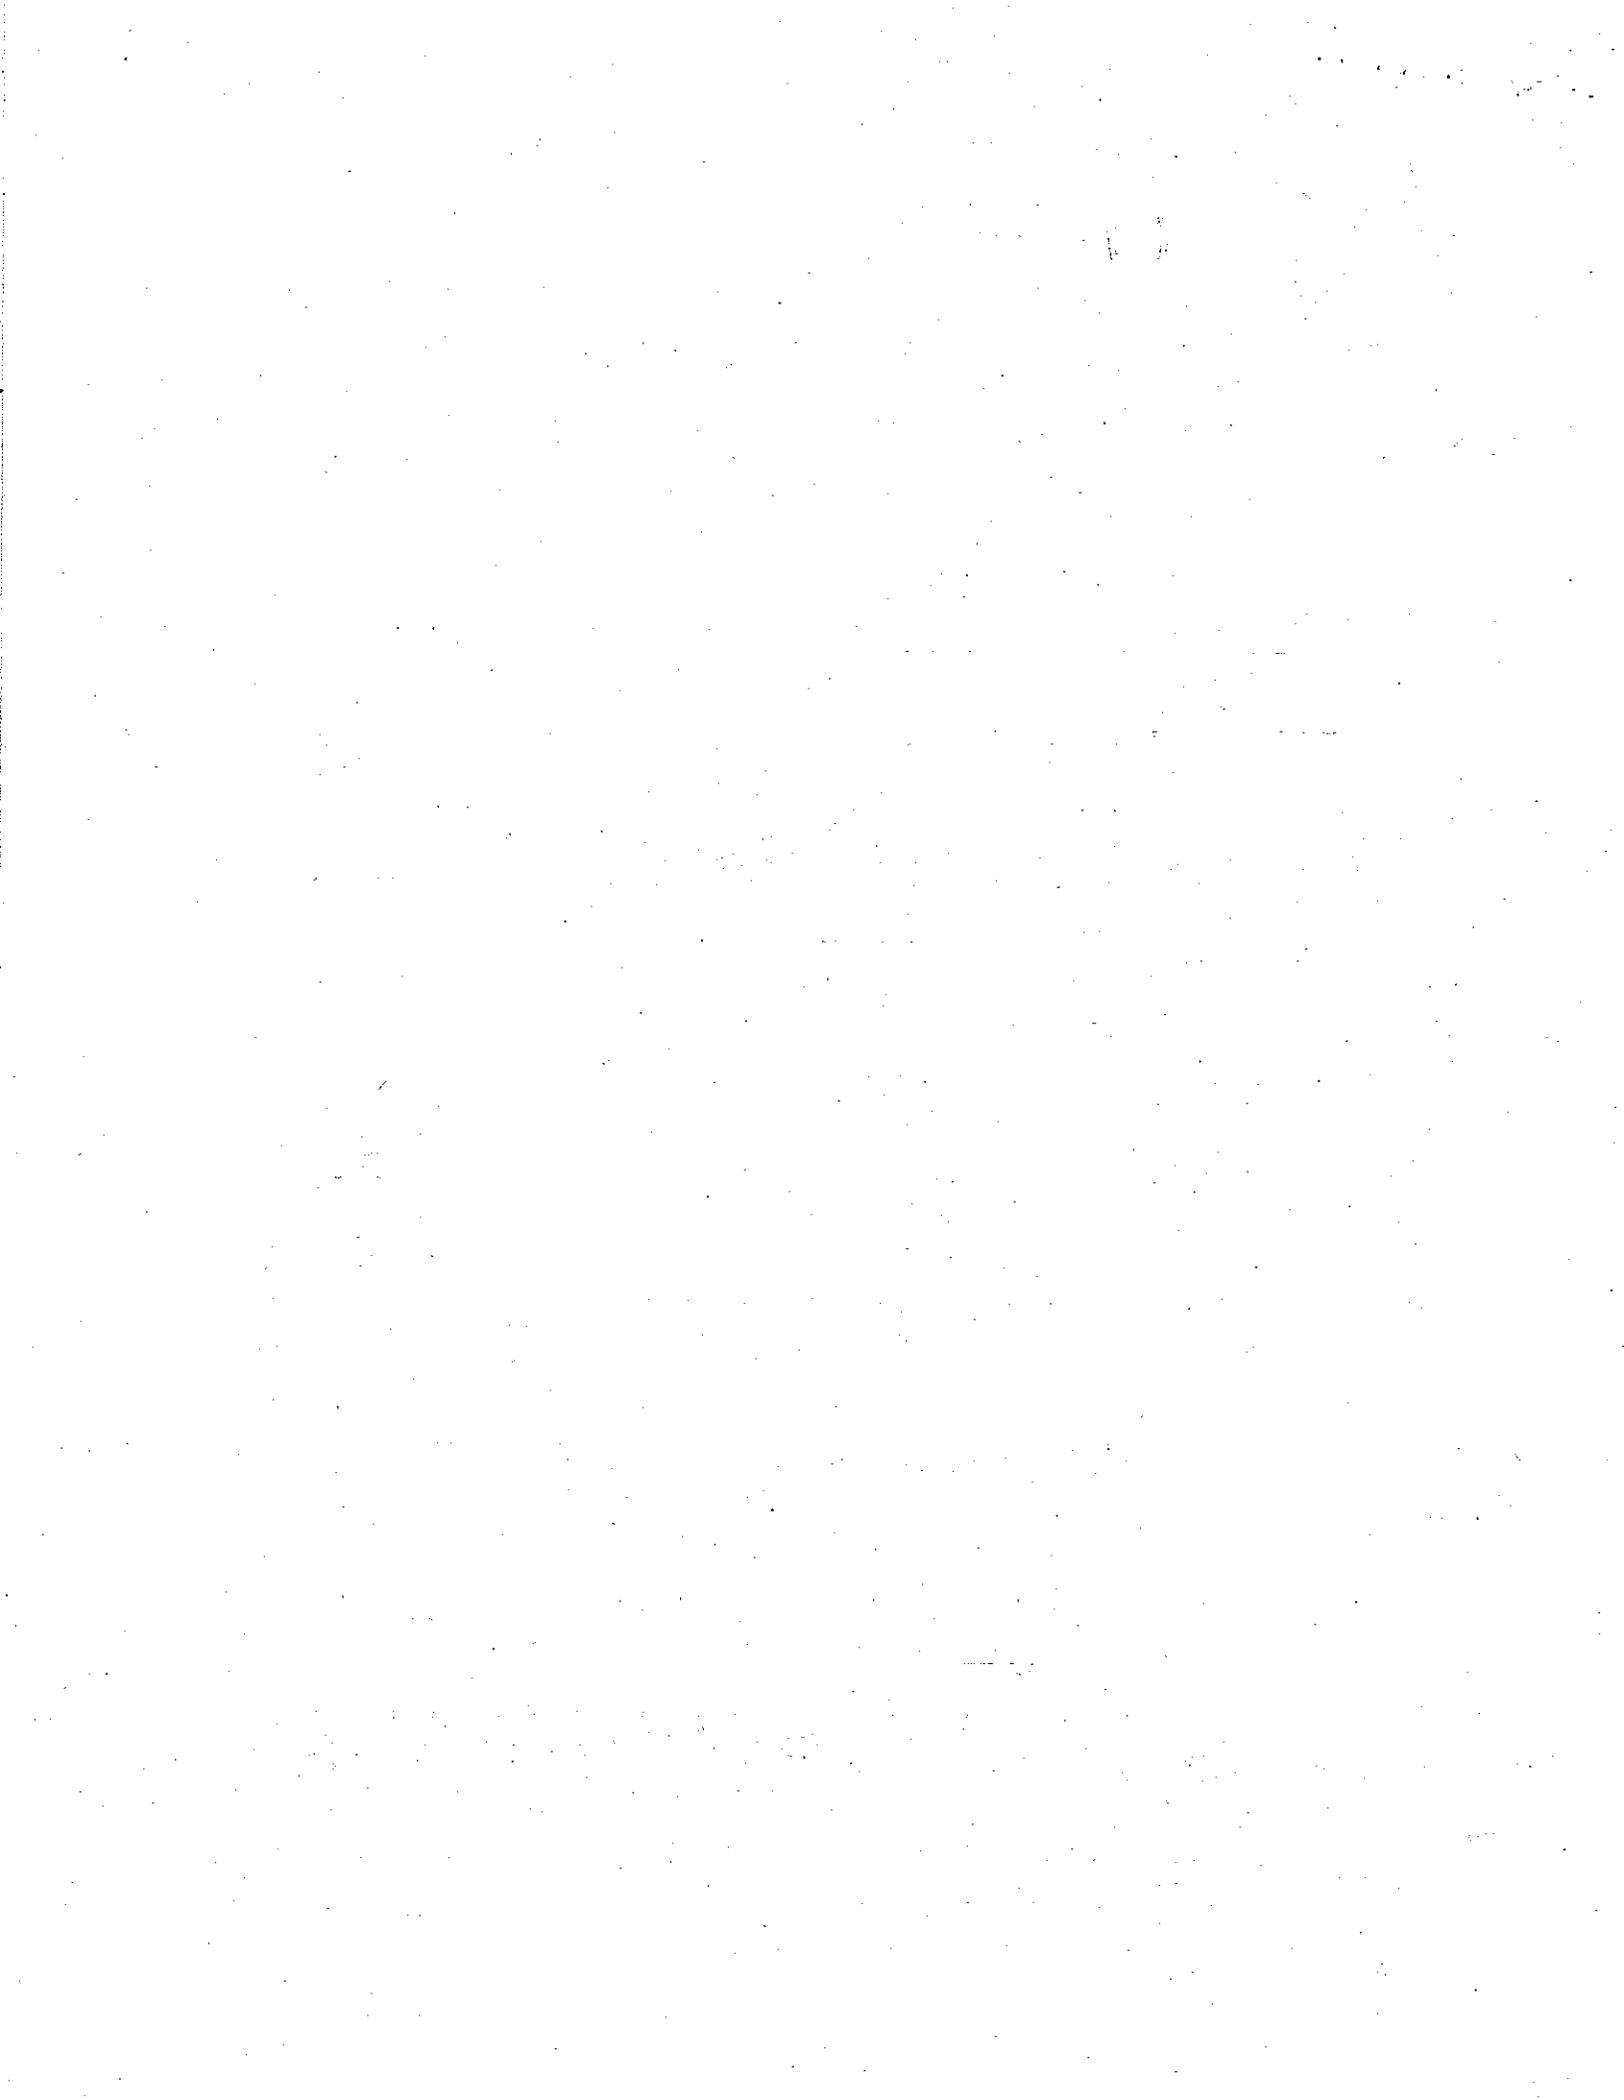

The purpose of the annual inspection is to ensure that state wildlife is safe from disease and pathogens. The inspection should be used to clear up problems and assist game farmers in maintaining clean, humane facilities.

To my knowledge, birds listed under this facility's game license are not infected with pullorum, fowl typhoid, avian tuberculosis, mycoplasma, avian influenza, duck plague, avian cholera, blackhead, or exotic Newcastle disease and have not been exposed to birds known to be infected with these diseases during the past 12 months. I have inspected the above listed facility and found no serious disease or pathogen problems.

Veterinarian's Signature: [Signature]

Please submit the white copy to the Department of Fish and Wildlife, along with the green second and third page of the inspection form—pink copy for your record, and yellow to the licensed game farm operator.

The Washington Department of Fish and Wildlife will provide equal opportunities to all potential and existing employees without regard to race, creed, color, sex, sexual orientation, religion, age, marital status, national origin, disability, or Vietnam Era Veteran's status. The department receives Federal Aid for fish and wildlife restoration. The department is subject to Title VI of the Civil Rights Act of 1964 and Section 504 of the Rehabilitation Act of 1973, which prohibits discrimination on the basis of race, color, national origin or handicap. If you believe you have been discriminated against in any department program, activity, or facility, or if you want further information about Title VI or Section 504, write to: Office of Equal Opportunity, U.S. Department of Interior, Washington, D.C. 20240, or Washington Department of Fish and Wildlife, 600 Capitol Way North, Olympia Washington 98501-1091.

THE CONDITIONS THAT FOLLOW EACH CATEGORY ARE TO GUIDE THE INSPECTION. THEY MAY NOT APPLY TO ALL FACILITIES.

INCUBATION FACILITIES

A. Natural Type

- Appropriate nesting material
- Clean nesting boxes
- Appropriate size nesting boxes
- Adequate air exchange for ventilation

B. Mechanical Type

- Clean incubators
- Incubators in a heated, dry area with adequate ventilation

(PLEASE INITIAL EACH CATEGORY SATISFACTORILY INSPECTED)

Sanitation _____ Temperature _____ Humidity _____

Comments: _____

No incubation facility

BROODER HOUSES

- Sufficiency of heat for chicks in environment
- Adequacy of space for chicks to move away from the heat source
- Adequate air exchange for ventilation

(PLEASE INITIAL EACH CATEGORY SATISFACTORILY INSPECTED)

Sanitation *YD* Heat Source *YD* Humidity *YD*

Comments: *Good ability to adjust pen size*

PENS

- Arrangement of outdoor facility with partial shade and shelter as needed
- Humane size of pens
- Suitable size and depth of water necessary for bird species' needs

(PLEASE INITIAL EACH CATEGORY SATISFACTORILY INSPECTED)

Sanitation *YD* Adequate Size *YD* Shelter *YD* Humidity *YD*

Comments: *Excellent 20-30sq ft per bird. Natural type setting
adequate natural cover*

WATER

- Availability of water
- Clean and adequate appearance of drinking water
- Clean source of drinking water
- Protection of drinking water from fecal contamination

(PLEASE INITIAL EACH CATEGORY SATISFACTORILY INSPECTED)

Sanitation *YD* Suitable Source *YD*

Comments: _____

FEED

- Availability of proper feed for each age and species of birds present
- Accessibility of food containers
- Availability of grit

(PLEASE INITIAL EACH CATEGORY SATISFACTORILY INSPECTED)

Proper Type _____ Grit Source _____

Adequate Feeder _____ Sanitation _____

Comments: no birds present

GENERAL CONDITIONS

- Picking at acceptable levels
- Satisfactory cleaning methods
- Containers suitable to keep away rats, flies, etc.
- Removal of spoiled and or leftover food from pens
- Program for parasite control
- Protection of accessible feed from fecal contamination
- Cages, pens, and other enclosures clean with minimal odor
- Drainage from facility into a stream, river, or pond is discouraged
- Clean, healthy, deformity and injury free appearance of animals

(PLEASE INITIAL EACH CATEGORY SATISFACTORILY INSPECTED)

Ventilation MD Cleaning Methods _____ Pest/Parasite Control _____

Birds Clean/Healthy _____ Picking and Deformities of Acceptable Limits _____

Comments: no birds present

NOTE:

Only those game farms that have their birds serum tested for Pullorum, Fowl Typhoid, Mycoplasmosis, Avian Influenza, and Exotic Newcastle Disease may provide birds for ultimate release without further conditions. A minimum of ten percent of the flock or ten randomly selected birds must be tested. A list of tested farms will be maintained by the Department and provided to shooting preserves and field trail organizers on request.

Documentation of serum test results if conducted must be attached to this form and submitted with the annual report.

Washington State University will conduct serum tests at their research center in Puyallup. They may be contacted at:

Avian Health Laboratory, Washington Animal Disease Diagnostic Laboratory
College of Veterinary Medicine, Washington State University-Puyallup
7613 Pioneer Way E., Puyallup, WA 98371-4919
Telephone: (253) 445-4537 Fax: (253) 840-4544
