WASHINGTON DEPARTMENT OF FISH AND WILDLIFE
Application for Planting Triploid Grass Carp

1. Name of Applicant or Organization THE LAKES AT GIG HARBOR
2. Address 4420 146th St. NW Day Phone: 253-857-5456
GIG HARBOR, WA 98332
3. Name of Lake or Pond to be Planted: LAKE DIANE
4. County: PIERCE Township: 22N Range: 3E Section: 18

Note: A photocopy of a county map showing rivers and streams at the proposed planting location MUST be provided with this application.

5. Size of lake or pond (1 acre= 208 X 208 ft.) 4 ACRES Max Depth (ft) 6
6. Does this pond or lake have public access provided by the city, county, state or federal government or other publicly owned municipality? YES NO
(Answer "NO" for golf course, sewage treatment or fish culture ponds and power or irrigation canals).
If you answered "NO", go to #8
7. If you answered "YES" to number 6, are the results of a Lake Restoration Feasibility Study included?
YES NO

If you answered "YES" go to # 10 and skip #11.

If you answered "NO", a permit cannot be issued until the standards for a lake restoration study have been met. Please contact your local WDFW regional office to proceed with this study.

8. Total number of waterfront property owners: 1
9. Number of waterfront property owners that support 1 or oppose 0
Proposed planting of triploid grass carp.

Note: The names, addresses and phone numbers of all waterfront property owners and whether or not they support the proposed grass carp introduction MUST be provided with this application.

10. Have all outlets and/or inlets been screened? YES NO
If you answered "NO" you must apply for a Hydraulic Project Approval (HPA) before installing screens. **The Department of Fish and Wildlife will not issue a permit to plant triploid grass carp into waters with unscreened outlets.** If the proposed lake or pond is greater than 20 acres, other permits from the county of jurisdiction may be required to install screens. Please contact your Department of Fish and Wildlife Regional Office for additional direction on this requirement.

11. Please draw a map of the lake or pond as close to scale as possible on the attached sheet. Draw in vegetation types that are present. This map will assist our biologists in determining how many fish to plant into your pond or lake.

Act pd
p. 1
5/10/11
M. W. P. 2. 11
M. W. P.

Triploid grass carp may be planted in the State of Washington after the required permits and documents are approved. These permits and documents include:

1. Approval to plant triploid grass carp from the Washington Department of Fish and Wildlife (WDFW)
2. A State Environmental Policy Act (SEPA) determination.
3. Lake Restoration Study (ONLY if lake or pond is public)
4. Hydraulic Project Approval (ONLY if screening is required) (This is an approval that comes only after SEPA is satisfied)
5. Documentation from the United States Fish and Wildlife Service verifying the fish being planted are certified disease free triploid grass carp. (You will receive this from the vendor distributing the fish)

The following documents are needed to apply for a permit to plant triploid grass carp. Please follow the instructions below to ensure your application will be processed quickly.

1. The Washington Department of Fish and Wildlife Application for Planting Triploid Grass Carp. (Attached) Follow all instructions and provide accurate answers for each question.
2. A completed Environmental Checklist (attached). We have provided you with information for several of the questions on that list. You must provide the section, township and range of the water body, a daytime phone number where you can be reached, in the event we have questions and sign and date the checklist.
3. The Washington Department of Fish and Wildlife Fish Transport Application/Permit (Attached) After WDFW staff has completed their on-site evaluation and you have satisfied the State Environmental Policy Act (SEPA) process, you will need to complete this application and mail it to the regional Fish and Wildlife office in your area. **There is a \$24 fee that needs to accompany this application.**
4. If your lake or pond is public, the results of a lake restoration study must be provided to the WDFW. Please consult with your local WDFW regional office for additional direction on how to proceed with this requirement.
5. If the body of water to be planted with grass carp flows into another body of water, it will have to be screened. If the waterbody has to be screened you will need a Hydraulic Project Approval (HPA), to obtain said approval you will need to complete a JARPA form. Please consult with your local WDFW regional office prior to installing a screen for additional direction on this requirement.

***Please send all documents to the Department's regional office, which has jurisdiction in the county of your lake or pond. Your application may take approximately six to eight weeks to process. If you have any questions, please contact the same regional office where you submitted your application.**
