**Subject:** Hughes Shooting Preserve  
**Attachments:** Revised Hughes Shooting Preserve Application.pdf

Attached is the revised copy of the Hughes Shooting Preserve Application. The differences include an adjustment of the boundary to ½ mile from Crumbacker Lakes to comply with the requirement of WAC 232-12-037. As a result of this boundary adjustment the size of the shooting preserve is reduced to 210 acres and the map was altered to reflect the new boundary.
