**ADDENDUM TO DETERMINATION OF NONSIGNIFICANCE
DATED: September 25, 2012**

Name of DNS: CASE INLET SHORELINE RESTORATION PROJECT

Description of DNS: #12-065: CASE INLET BULKHEAD REMOVAL AND WETLAND RESTORATION

Proponent/Applicant: South Puget Sound Salmon Enhancement Group
Attn: Brian Combs
6700 Martin Way East
Olympia, WA 98516
360-412-0808
brianc@spsseg.org

Location of DNS, including street, if any: 940 E. North Bay Road, Allyn, WA, Washington, Mason County; Section 17, Township 20 North, Range 1 West WM

Lead Agency: Washington Department of Fish and Wildlife (WDFW)

WDFW is providing updated information on this project that may be of interest to other agencies or the public. The updated information provided below does not substantially change the analysis of significant impacts in the existing environmental checklist.

The proposal is still for shoreline restored, building removed & to proceed to sell the upland property so that WDFW can re-invest. If the Port of Allyn can come up with an alternate plan within a month to save the building, the plans can be adjusted to accommodate a different strategy for the building while still proceeding with the shoreline restoration & eventual sale of the property. If an alternate plan for the building cannot be developed, Department of Archaeology and Historic Preservation (DAHP) consultation for building removal will begin. At this time the existing buildings ultimate fate and location and not known but shoreline restoration will proceed.

Based on the original environmental checklist and the updated information provided in this addendum, we have determined that a new threshold determination is not warranted. There is no comment period associated with this SEPA environmental checklist addendum. The DNS is now final.

Responsible Official: Bob Zeigler

Position/Title: SEPA/NEPA Coordinator, Regulatory Services Section
