**RE: Whitman College, College Creek Modification project
105 Shady Rill, Walla Walla File# DNS-12-073**

Mr. Zeigler:

We would like to thank the Washington State Department of Fish and Wildlife for this opportunity to provide comment on the request of Whitman College for the College Creek Modification project.

Walla Walla Joint Community Development Agency (WWJCDA) staff has reviewed the Environmental Checklist and SEPA Determination of Non Significance [DNS]. This letter serves as notice that this project will require a Shoreline Substantial Development permit, unless documentation is provided that demonstrates an exemption from the provisions of RCW 90.58 (Shoreline management act), WAC Chapter 127-27 and the City of Walla Walla Shoreline Master Program.

If the applicant is requesting an exemption from a Shoreline Substantial Development permit via a Watershed restoration project and/or Fish habitat enhancement project, please assist the applicant and forward this documentation to the WWJCDA.

Please contact the WWJCDA, at (509) 524-4710 or info@wwjcda.org with any questions.

Sincerely,

Jonathan D. Maland
Principal Planner
