Subject: RE: ECY 13-0162 - Luhr Creek Fish Passage & Stream Enhancement project - Comments

Thank you for your comments on the Luhr Creek Project on McNeil Island. We are working with a geotechnical engineer to determine the procedure and cost for soil sampling. I can provide you with additional information in the next few days as to our options for proceeding with the project, if you'd like.

WDFW plans to obtain a 401/404 Water Quality Certification, if required, after submitting the JARPA application to the US Army Corps of Engineers.

I thank you again for your comments and I will respond with more detail by the end of the week, once the SEPA comment period has closed.

Chris Gourley
