### DETERMINATION OF NONSIGNIFICANCE (DNS)

**Name of Proposal:** LAKE ABERDEEN POLLUTION ABATEMENT POND

**Description of Proposal:**

This project will modify an existing pollution abatement (PA) pond by adding additional 10” connection piping, new 6” vacuum piping, and a new center wall and end slab. A portion of the ground slab will be removed for concrete transitioning. A portion of the current flat bottom of the PA pond will be filled with compact structural fill before concrete is placed on top of it to create a new sloped bottom. The new PA pond will be covered with a forest green vinyl and steel cover to keep additional debris out of the pond. This cover will be acquired by the contractor and specifications will be submitted to City of Aberdeen for approval and a Building Permit.

**Proponent/Applicant:** Washington Department of Fish and Wildlife
